DELLTechnologies

Storage Direct Protection
for Dell PowerStore
Experience the power of integrated end-to-end data protection

Combine the advantages of
PowerStore

+

PowerProtect Data Domain

Achieve data recovery confidence with an **all-in-one** solution that gets you **up and running in just 90 seconds.**

How It Works

1. Connect
Point and connect in just a few simple steps

2. Protect
Set protection policies and apply to any volumes or volume group

3. Restore
Streamline restore to original or new location

1-2-3...and you're protected.

Efficient Technology : By the Numbers

90 Seconds — Set up time via integrated UI[1]

5:1 — Data reduction guarantee via PowerStore[2]

55:1 — Data reduction guarantee via PowerProtect Data Domain[3]

BENEFITS OF STORAGE DIRECT PROTECTION

Simplify Operations
Streamline operations by avoiding multi-vendor complexity.
- Protect data on-premises and in the cloud
- Extend self-service protection beyond the storage system
- Gain insights from integrated, AI-powered health monitoring

Increase Efficiency
Lower expenses with industry-leading data reduction. Guaranteed.
- Maximize storage utilization and reduce hardware costs with powerful data reduction guarantees
- Reduce operational costs for power, cooling and rack space

Amplify Data Security
Stay ahead of security threats and keep critical data safe from attacks.
- Decrease risk with a validated Zero-Trust security model
- Secure data integrity through immutability
- Isolate critical data with an integrated cyber vault

Future-Proof Your Enterprise
Prepared for the future, no matter what it brings.
- Accelerate innovation with integrated, modernized storage and protection management
- Remain current with automated software updates

Storage Direct Protection
Simplify your data protection and security with the combined power of PowerStore and PowerProtect Data Domain
