## Features

## Increase productivity for IT & employees

	Health, application experience and security scores	<b>Telemetry</b> , scores, alerts and recommendations provide a holistic view of your fleet of Dell PCs. On a single screen, gauge the percentage of devices that are healthy, at risk or impaired
	Remote resolution	<b>Define</b> and orchestrate remote remediation workflows. Organize by work groups or functions. Choose auto update or repair on your own
	Custom update catalog management	<b>Automated</b> , custom update catalog creation and deployment delivers seamless, remote updates for Dell BIOS, driver, firmware and applications
	Tailored recommendations	<b>Actionable</b> , intelligent recommendations for optimizing, upgrading and repairing PCs to increase productivity for employees
	Customized dashboard	<b>Clear</b> view of devices or elements most meaningful to you. Zoom in on the entire fleet or a single device
	Early detection of issues	<b>Predictive AI</b> identifies issues before they become problems, automatically creates a case and provides a proactive path for resolution
	AI-driven utilization metrics	<b>Trends</b> and performance issues are uncovered through real-time utilization metrics, allowing IT to root cause problems and resolve across the Dell fleet
	Modular options	<b>Protect</b> your investments by adding accidental damage, keep your hard drive or extended battery service
	Service Account Manager	<b>Provides designated support</b> for escalation management, incident reporting and asset base/account planning
	Traditional support	ProSupport Flex is built on the exceptional foundation of 24x7 support, onsite next business day service with direct access to in-region ProSupport experts and a single point of contact for hardware and software expertise.
	Subscription model	Spread support costs over the lifecycle of the device with annual and monthly payment options (direct customers in US and Canada).
