

DELL APEX DATA STORAGE SERVICES

Simplify storage for data-driven analytics

Generate value across all your workloads and applications, from edge to cloud

Common roadblocks for analytics workloads and applications

- Unpredictable performance
- Complex management
- Siloed data
- Security concerns

Gain flexibility and control over your storage infrastructure for Analytics

- ✓ Simplify workflows
- ✓ Accelerate business analytics projects
- ✓ Support cloud initiatives
- ✓ Extract greater value from analytics applications and data workloads

Dell APEX Data Storage Services

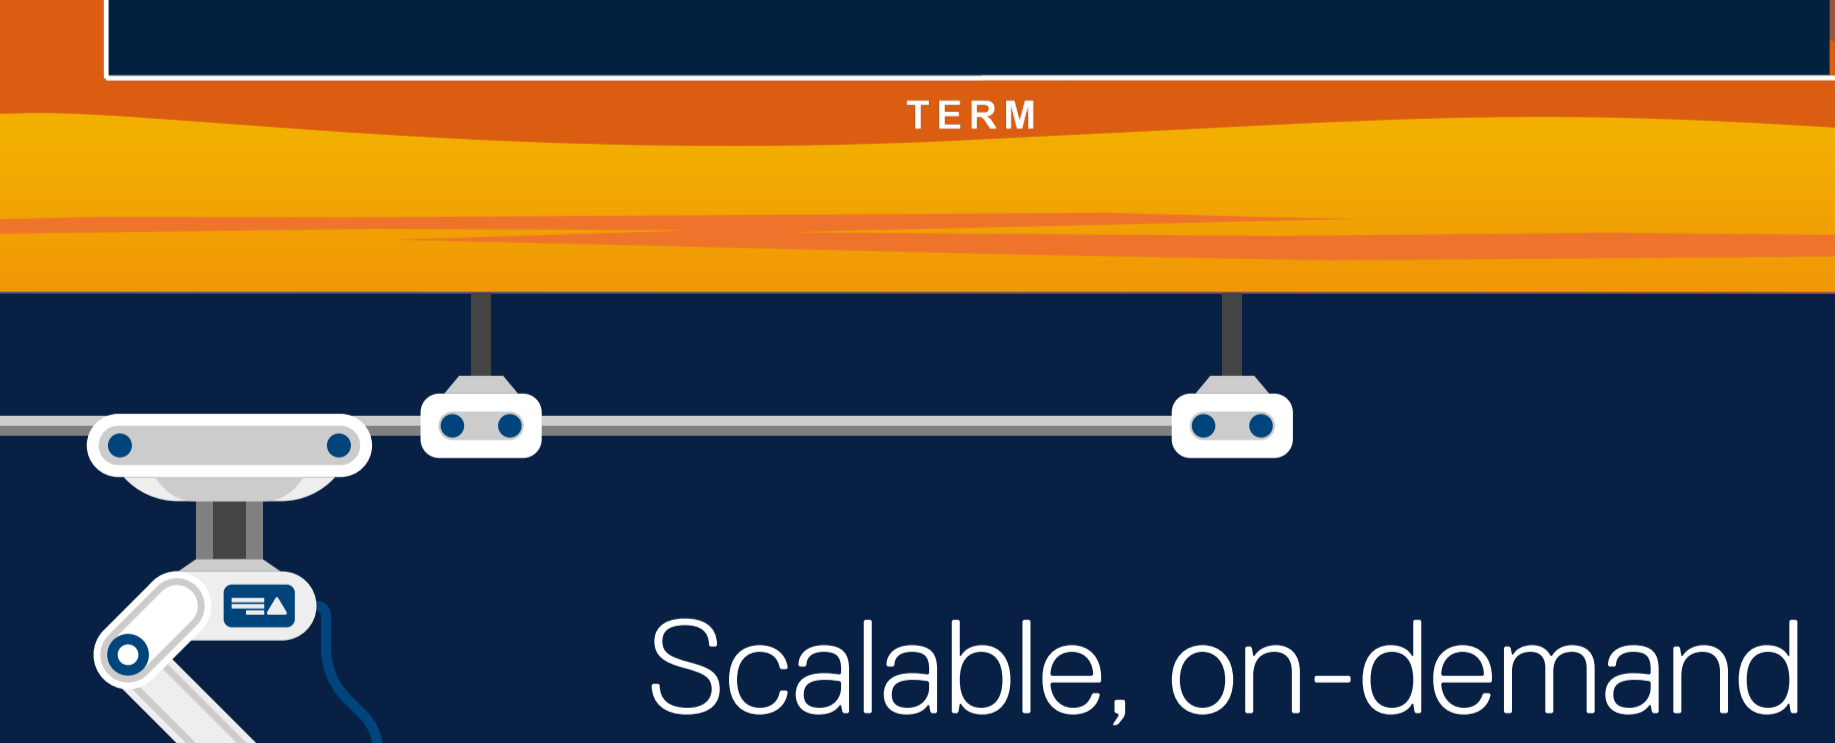

delivers flexible consumption-based storage for your analytics data infrastructure.

- Supports a wide range of structured and unstructured workloads.
- Robust security options with Data at Rest Encryption (D@RE) via self-encrypting drives.
- Scale capacity up and down seamlessly.
- Designed for 99.9999% availability.¹

Scale on demand

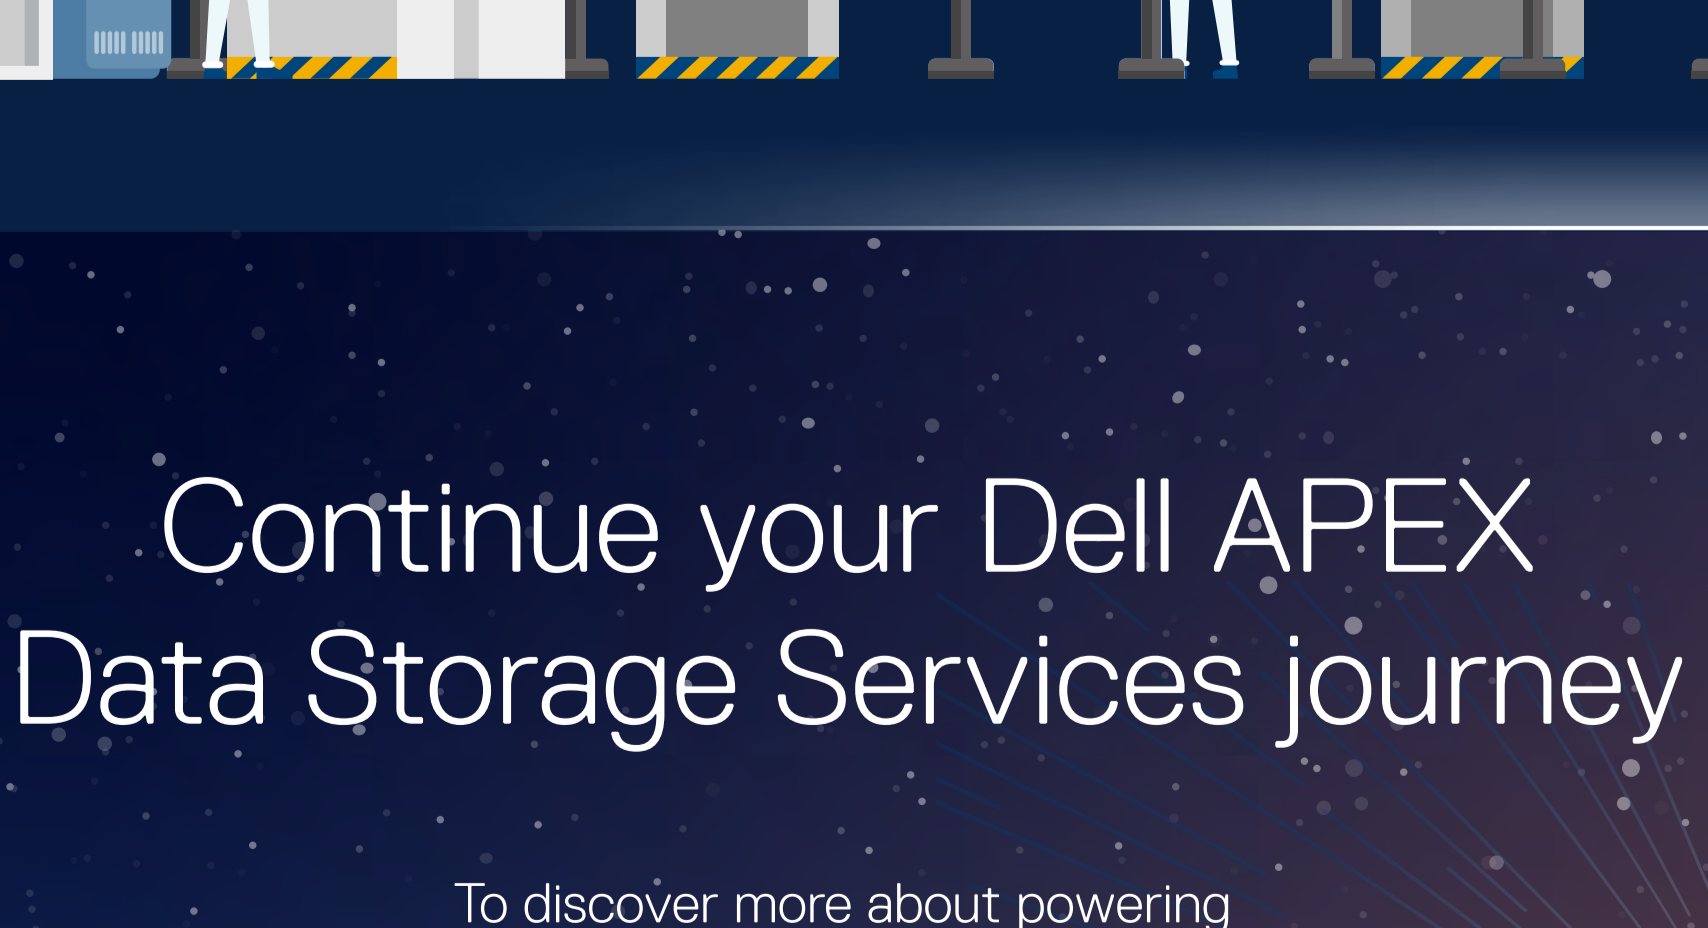

To meet the dynamic demands of file and block-based analytics workloads, Dell APEX provides reliable, elastic storage resources with the ability to respond dynamically to changes in workload requirements.

Pay for what you use.

Scalable, on-demand storage resources combined with enterprise-class features

Control and security of infrastructure located on-premises or in an interconnected Dell-managed colocation facility.²
