

# Proactive support with modern insights

## ProSupport for PCs

You need more than basic warranty service to keep your remote employees happy and productive. ProSupport for PCs combines 24x7 direct access to in-region IT experts and onsite next business day service with AI-driven, intelligent support to allow you to stay ahead of IT issues and employee frustration.

### Monitor the health of your entire fleet

Our health, application experience and security scores all on one dashboard give you a holistic view of your fleet and allow you to make a quick analysis of issues impacting your fleet and your employee productivity.

### Resolve issues proactively

With AI-driven telemetry and insights, you can proactively detect and resolve issues to minimize downtime and loss of productivity. We'll get an alert, automatically open a ticket and identify a path to resolution before you have a chance to call.

### Increase productivity

Modern insights provide crucial information about your Dell fleet, including recommendations for increased performance, identification of utilization trends and discovery of performance issues – on the entire fleet or a single PC.

Up to  
**16 fewer steps**  
to resolution over competitor's support plans\*

Dell resolves problems in  
**less time**  
and fewer steps than HP and Lenovo support plans\*

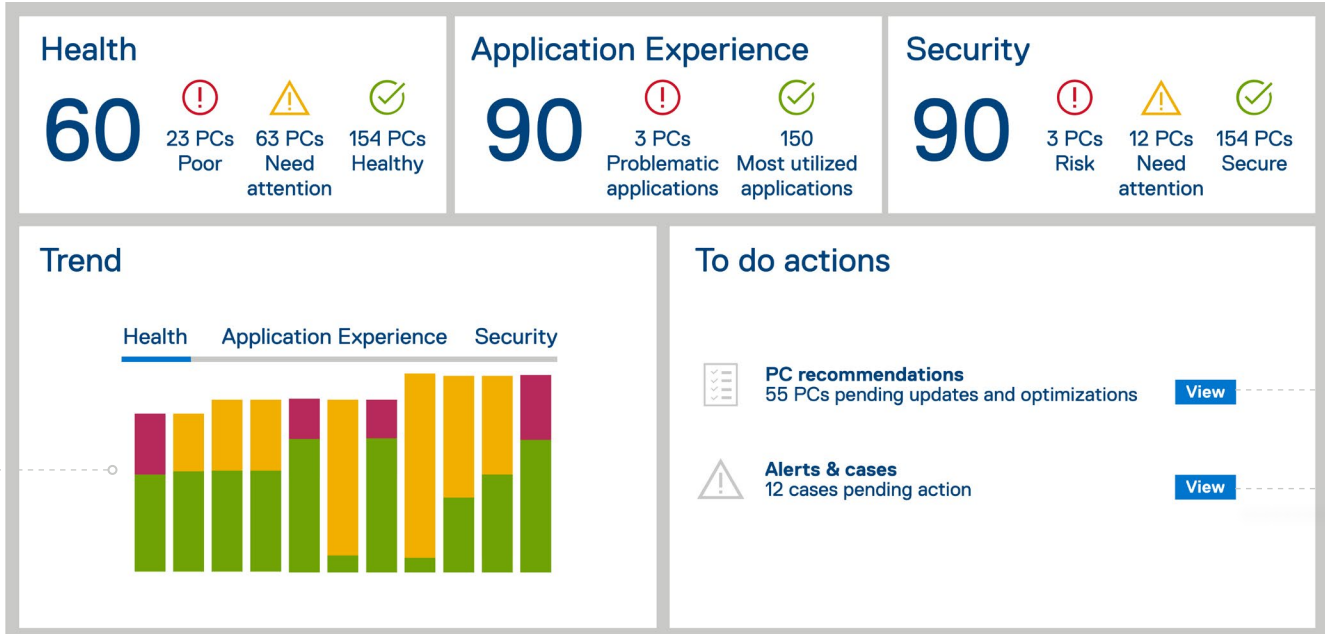

Up to  
**6x faster**  
time to resolution of hardware issues than our competitors\*

# Customizable dashboard provides a holistic view of fleet or individual devices

**Health, application experience and security scores**

Quick analysis of the health of your fleet of Dell PCs with the ability to zoom in and pinpoint issues on a single device

Simulated dashboard

1

**AI-driven utilization metrics**
