

# The NIS2 Regulation

How to navigate new EU-wide legislation with confidence.

The enforcement of NIS2 on **17 October 2024** aims to improve the overall level of cybersecurity in the EU. Businesses, in a range of sectors, will need to examine their security practices and understand any gaps around cyber risk management, incident reporting and information-sharing obligations.

## The technology, people and processes to support your journey

Dell Technologies can help you to prepare for these new requirements:

- Consulting Services
- Incident Response
- Managed Detection and Response
- Cyber Recovery Services
- Resiliency Program Management
- Training

## Focus on 4 primary business areas

### Governance

Be aware of and understand the mandates of the directive and the risk management requirements.

### Incident Reporting

Establish processes to ensure timely reporting in the event of significant incidents.

### Business continuity

Ensure system recovery, emergency procedures and a crisis response team to maintain business continuity.

### Cyber Risk Management

Implement measures to minimize risk through activities such as incident management, supply chain security, network security and access control.

## Is your sector covered by NIS2?

Energy

Transport

Banking & Financial Market Infrastructure

Health

Drinking & Waste Water

Digital Infrastructure

Public Administration

Space

Postal Service

Waste Management

Chemicals

Foods

Manufacturing

Digital Providers

Research

## Non-compliance isn't an option

Not meeting the new NIS2 regulations can have unfortunate results...

### Fines

### Legal ramifications

Management can face **legal action** if they fail to adhere to the new rules.

## Stay ahead with Dell Technologies

Prepare for NIS2 with Dell's industry-leading portfolio of cybersecurity and resiliency services.
