

Implementation Services for Microsoft
Azure Virtual Desktop & Windows 365

Unleash workforce agility with secure virtual desktops

Empower employees for agile, hybrid workstyles

Welcome to a world of seamless productivity, enhanced experiences and simplified IT management, made possible by Dell services for cloud-powered virtual desktops.

Dell Implementation Services for Microsoft Azure Virtual Desktop and Windows 365 provide hybrid, frontline and field workers with secure access to the resources they need from practically anywhere.

IT teams gain an advantage with increased security and streamlined management featuring centralized storage, updates, patches, application deployments, native Microsoft integrations and more.

Leverage our Microsoft VDI expertise for a smooth desktop transformation

Rely on expert guidance from Dell Technologies to maximize your work anywhere solutions. Our Microsoft certified professionals will first assess your unique environment, gather requirements, and create a tailored plan for success. We handle implementation, testing, and prepare your team for seamless operations.

✓ Deliver Windows desktops virtually anywhere

✓ Increase desktop flexibility & scalability

✓ Improve hybrid work security

✓ Optimize IT management & costs

Companies using Dell Validated VDI designs have reported:

24x

Less time spent monthly on application deployment & maintenance

10x

Improvement in performance & response capabilities

75%

Reduction in total time spent resolving VDI-related issues

Up to **50%**

Reduction of physical hardware spend for user endpoints

Implementation Services for Microsoft Azure Virtual Desktop

Establish secure, flexible and scalable access to Windows desktops and applications from practically anywhere.

- Enable your teams with a Microsoft Azure Virtual Desktop implementation on Azure public cloud or Azure Stack HCI
- Extend your capabilities with additional images, host pools, application packages and users plus Teams media optimization
- Equip your business with an enhanced implementation, including additional users and application packages, virtual GPU features & FSLogix profiles, and knowledge transfer

Implementation Services for Microsoft Windows 365

Equip employees for seamless productivity without the complexity of managing a traditional virtual desktop infrastructure

- Enable your team with a pilot implementation of Microsoft Windows 365 with built-in applications and the knowledge to operationalize
- Extend your capabilities with a pilot featuring additional MS Gallery virtual machine (VM) images and users plus Cloud PC security policies
- Equip your business with a production implementation, even more VM images, application packages, security policies, users and optimizations to improve employee experience

Over 35 years in partnership with Microsoft

Our co-engineered solutions, services and technical expertise provide you with a more complete partnership to drive outcomes and accelerate digital transformation.

- ✓ Global Microsoft FastTrack Partner
- ✓ 47,000+ Microsoft certifications held by Dell Technicians
- ✓ 7/7 Microsoft Solution Area Designations
- ✓ Member of Microsoft Intelligent Security Association
