Your One-Stop Shop for Proven and Modern Cloud Data Protection

Dell Technologies stops at nothing to help you harness the transformative power of technology so you can be ready for whatever comes next.

Simplify choice, deployment and management.

PowerProtect

Why one stop?

A comprehensive portfolio of data protection solutions offered by a single vendor.

Software (on-premises, in-cloud) and appliances (target, integrated, virtual)

Reduce risk and downtime.

Organizations using multiple data protection vendors are likely to experience almost…

- 5x higher data loss costs\(^2\)
- 2x higher downtime related costs\(^2\)

Economic and Operational Benefits

- Less than 1¢ per GB per month to protect\(^3\)
- 22% reduction in data protection administration costs\(^3\)

A comprehensive portfolio of data protection solutions offered by a single vendor.

Lower costs

- Economic and Operational Benefits
  - Less than 1¢ per GB per month to protect\(^3\)
  - 22% reduction in data protection administration costs\(^3\)

Unmatched choice, flexibility and predictability in consumption with pay-as-you-go, pay-as-you-use or as-a-service.

Implementation usage-based pricing and consumption models throughout your data protection lifecycle to cut costs, boost agility and reduce unplanned downtime.

Why one stop?

- 23% lower cost of storage operations\(^4\)
- 92% faster deployment time\(^4\)
- 54% fewer incidents of unplanned downtime\(^4\)

Strategies and tools to manage evolving data protection needs as workloads evolve and shift.

- Simplified day-to-day operations with easy-to-use interfaces on-premises or in the cloud
- Tools to seamlessly transition and migrate workloads
- Unsurpassed experience helping organizations accelerate digital transformation

Dell Technologies, your ultimate choice for proven and modern cloud data protection.
