Business-ready laptops with essential security and manageability features

Offerings may vary by region.

Dell Pro Essential Business Features

Security

Protect sensitive data with a hardware TPM security chip, log in quickly and securely with a fingerprint reader, and prevent theft by anchoring your computer with the security lock slot (available on 14" only).

Support

Dell Support Assist detects and resolves issues proactively, while ProSupport offers 24/7 expert help. Extend coverage with the ProSupport 5-year maximum warranty for peace of mind against unexpected issues.

Manageability

With Autopilot and Microsoft Intune, streamline device setup by automating configuration and deployment, allowing your team to start working immediately with minimal IT. With Dell Management Portal you can manage Dell PCs, over the cloud in conjunction with Microsoft Intune.

Intelligent Software

Enhance system performance and security with Dell BIOS, while Dell Update ensures smooth operation by automatically updating critical fixes and drivers. Leverage Dell Optimizer's AI for application and power optimization, and use Excalibur OS for OS recovery support.

Proven Reliability

Enjoy peace of mind with Dell's high standards including military-grade testing for added reliability and durability.

Hardware

Choose an optional aluminum chassis (14" only) for enhanced durability and a sleek look, boost productivity with a 10-key numpad for quick data entry (15" only) and ensure privacy with a camera shutter (available on 14" aluminum chassis only).

Operating System

Windows 11 Home simplifies everyday tasks with a user-friendly interface, while Windows 11 Pro enhances productivity with advanced security features and remote desktop access, perfect for managing your business efficiently.

Configurability

Accelerate your workflow with Smart Select, which provides pre-selected device configurations that are ready to ship quickly, ensuring your team gets the right tools without delay.
