

Dell's most intelligent 4K webcam¹

Dell UltraSharp Webcam

MODEL: WB7022

 Certified for
Microsoft Teams

¹ Based on internal analysis of external 4K personal conferencing webcams, August 2023.

Connect like you're there

Our 4K High Dynamic Range (HDR) webcam with a large Sony STARVIS™ CMOS sensor captures more light, while the multi-element lens offers crystal clear, undistorted images, delivering exceptional image quality. Experience sharp, bright and professional grade video quality every time.

Exceptional image quality

Elevate your video conferencing experience with a professional-grade webcam that optimizes your visuals with a large 4K Sony STARVIS™ CMOS sensor, multi-element lens and Advanced Image Signal Processing with AI Auto-Framing.

Elegant and premium design

Made of premium aluminum and a smooth textured metallic finish, the Dell UltraSharp Webcam looks great and makes you look even better. Mounted on your virtually borderless monitor, the webcam sits neatly atop without blocking a single pixel.

Easy to use

Offering a seamless webcam mounting solution, this premium webcam is designed for quick and effortless setup. Presence Sensing technology automatically lock/unlock your device when you walk away or approach, and uses Windows Hello to log you in

Beautiful inside and out

Get an unblocked view on your virtually borderless monitor with this sleek webcam mount.

Attach the magnetic mount on your webcam without tools and enjoy neat cable management.

Flexibly attach your webcam to the tripod¹ using the inbox tripod adapter.

Look your best, always

Superior picture quality in extreme lighting environments

Digital overlap HDR delivers accurate colors even when you're overexposed because you're near a bright window.

Automatically eliminates grainy images

The perfect combination of Temporal Noise Reduction (3DNR) and Spatial Noise Reduction (2DNR) brings video noise reduction to the next level, offering crisp and clear picture quality even in low light.

Keeping you in focus

Powered by advanced AI auto-framing, the 4K webcam ensures you stay the focus of attention, keeping you at the center of the picture no matter where you move.

Brilliant however you view it

Record and playback content at 4K 30 frames per second or at full HD 60 frames per second with equally smooth and high-quality video on your monitor.

Ultra compatible, so you can work well with others

Certified for Microsoft Teams and Zoom and compatible with leading UC platforms. You can be sure that this webcam works seamlessly with your devices.

See the full picture

Design how they see you with the easy and intuitive Dell Display and Peripheral Manager software¹

Set up is easy, with no need for lengthy install guides. The [Dell Display and Peripheral Manager](#)¹ instantly installs² on your PC to quickly guide you to showtime. Choose between three preset Fields of View: the default 90° view to show more of your background, 78° for mid-range or 65° for close-ups. You can customize your video with setting options that control HDR, Auto Focus, 5x Digital Zoom, AI Auto Framing, Brightness, Sharpness, Contrast and Saturation. Look your best every time with the Dell UltraSharp Webcam.

¹ Dell Display and Peripheral Manager is compatible with Win OS (10, 11, 11 on ARM) and macOS (12, 13, 14 and 15) only.

² Manual installation may be required for some cases due to individual system security requirement. Auto-installation is also not available for macOS.
