

The market's most complete deployment offer

Dell ProDeploy Plus for Infrastructure

Your business has a strategy to modernize IT, and the team needs to put new technology to work fast, at its full potential. How do you accelerate infrastructure deployments, maximize new technology, and stay focused on big picture priorities? With ProDeploy Plus, our deep experience in technology, history of rapid integration and globally proven success strategies help you make IT transformation real.

Expert execution from start to finish

From planning to forward, ProDeploy Plus provides the skill and scale needed to successfully execute demanding deployments in today's complex IT environments. We start with a site readiness review, planning and recommendations.

We then elevate your experience with onsite hardware and software deployment coupled with guidance and implementation of CloudIQ cybersecurity best practices. Your deployment is kept on track with a single in-region point of contact for project management and an online collaboration platform that helps you track progress and stay engaged with our delivery experts.

3X

Faster
deployment

Benefits:

- Accelerate technology adoption with expert execution from start to finish
- Maximize your new technology through hands on experience from Dell experts
- Increase security with Cloud IQ Cybersecurity best practices and policies

"With ProDeploy Plus we realized accelerated technology adoption with expert deployment of new PowerProtect Appliances. Experts came on premise and handled all the installation for us and even shared knowledge around the new technology."

– **Dimitris Mataftsis**,
Backup Administrator
National Bank of Greece

Complement your IT professionals with our expertise

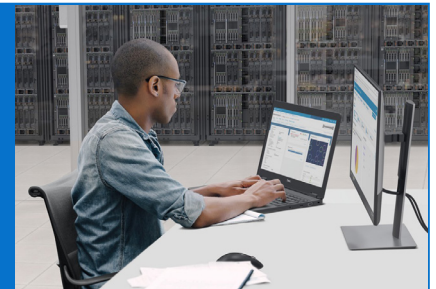

In person and hands on

ProDeploy Plus is built on best practices refined through over 35 years of experience. Our experts help put technology to work, around the world in every circumstance. ProDeploy provides a single point of contact for project management, implementation planning plus documentation and knowledge transfer to your team.

Features

- 24 X 7 Deployment
- In region single source of project management
- Site readiness review and implementation planning
