# A MODERN EMPLOYEE EXPERIENCE

**JEAN GUILLAUME PONS**

SENIOR VICE PRESIDENT CLIENT SOLUTIONS GROUP SALES

*With dramatic changes to the business landscape in recent years, adapting to hybrid workstyles and new business models is crucial to driving business results. Jean Guillaume Pons, Senior Vice President CSG Sales discusses how Dell Technologies' 2023 client portfolio was reimagined to help you grow your business.*

Watch **Video**

## THE INDUSTRY

# OFFICE OF THE FUTURE

The re-imagination of the office and workspace is long overdue, and current trends are forcing the business world to create and provide environments that empower workers, managers and executives.

## ***What's happening in the industry right now?***

According to a recent study, hybrid work is here to stay and people are demanding even more out of their work arrangements:

**35%** of U.S. decision makers at all levels expect more flexibility from their work arrangements.\*

**79%** of all companies are willing to financially support ongoing remote work connectivity costs.\*

**53%** average decrease in office size is being reported by over two thirds of global companies.\*

**98%** of companies that hire remotely report a positive impact on the decision to do so.\*

\* Office of the Future, October 2022

# Designing offices for more meaningful experiences

Offices today are competing with people's homes and even neighborhoods. That's why it's critical that companies of all shapes and sizes begin reevaluating their current office designs from all angles and developing a plan to provide spaces that promote both **productivity** and **a sense of belonging**.

Here are a few elements and design trends that are on the rise and why they create more meaningful work experiences for individuals.\*

**Flexible private spaces:** Flexible private spaces mixed with shared can accommodate both introverts and extroverts.

**Dynamic neighborhoods:** Creating an aspirational environment includes a natural mix of informal gathering areas and heads-down desks.

**Sound acoustics:** Good acoustics allow employees to concentrate better when working alone and have more distraction-free conversations when collaborating.\*\*

**Video conferencing:** Companies should take a casual collaboration approach to conferencing spaces and equip just about every space with video conferencing.

Download **the report**

- How the way we work will change **the office of the future**

\* Contently. "The Future Of The Office." Accessed October, 2022.

\*\* Metropolis. "What 'Design Empathy' Has to Do With the Workplace." Accessed October, 2022.

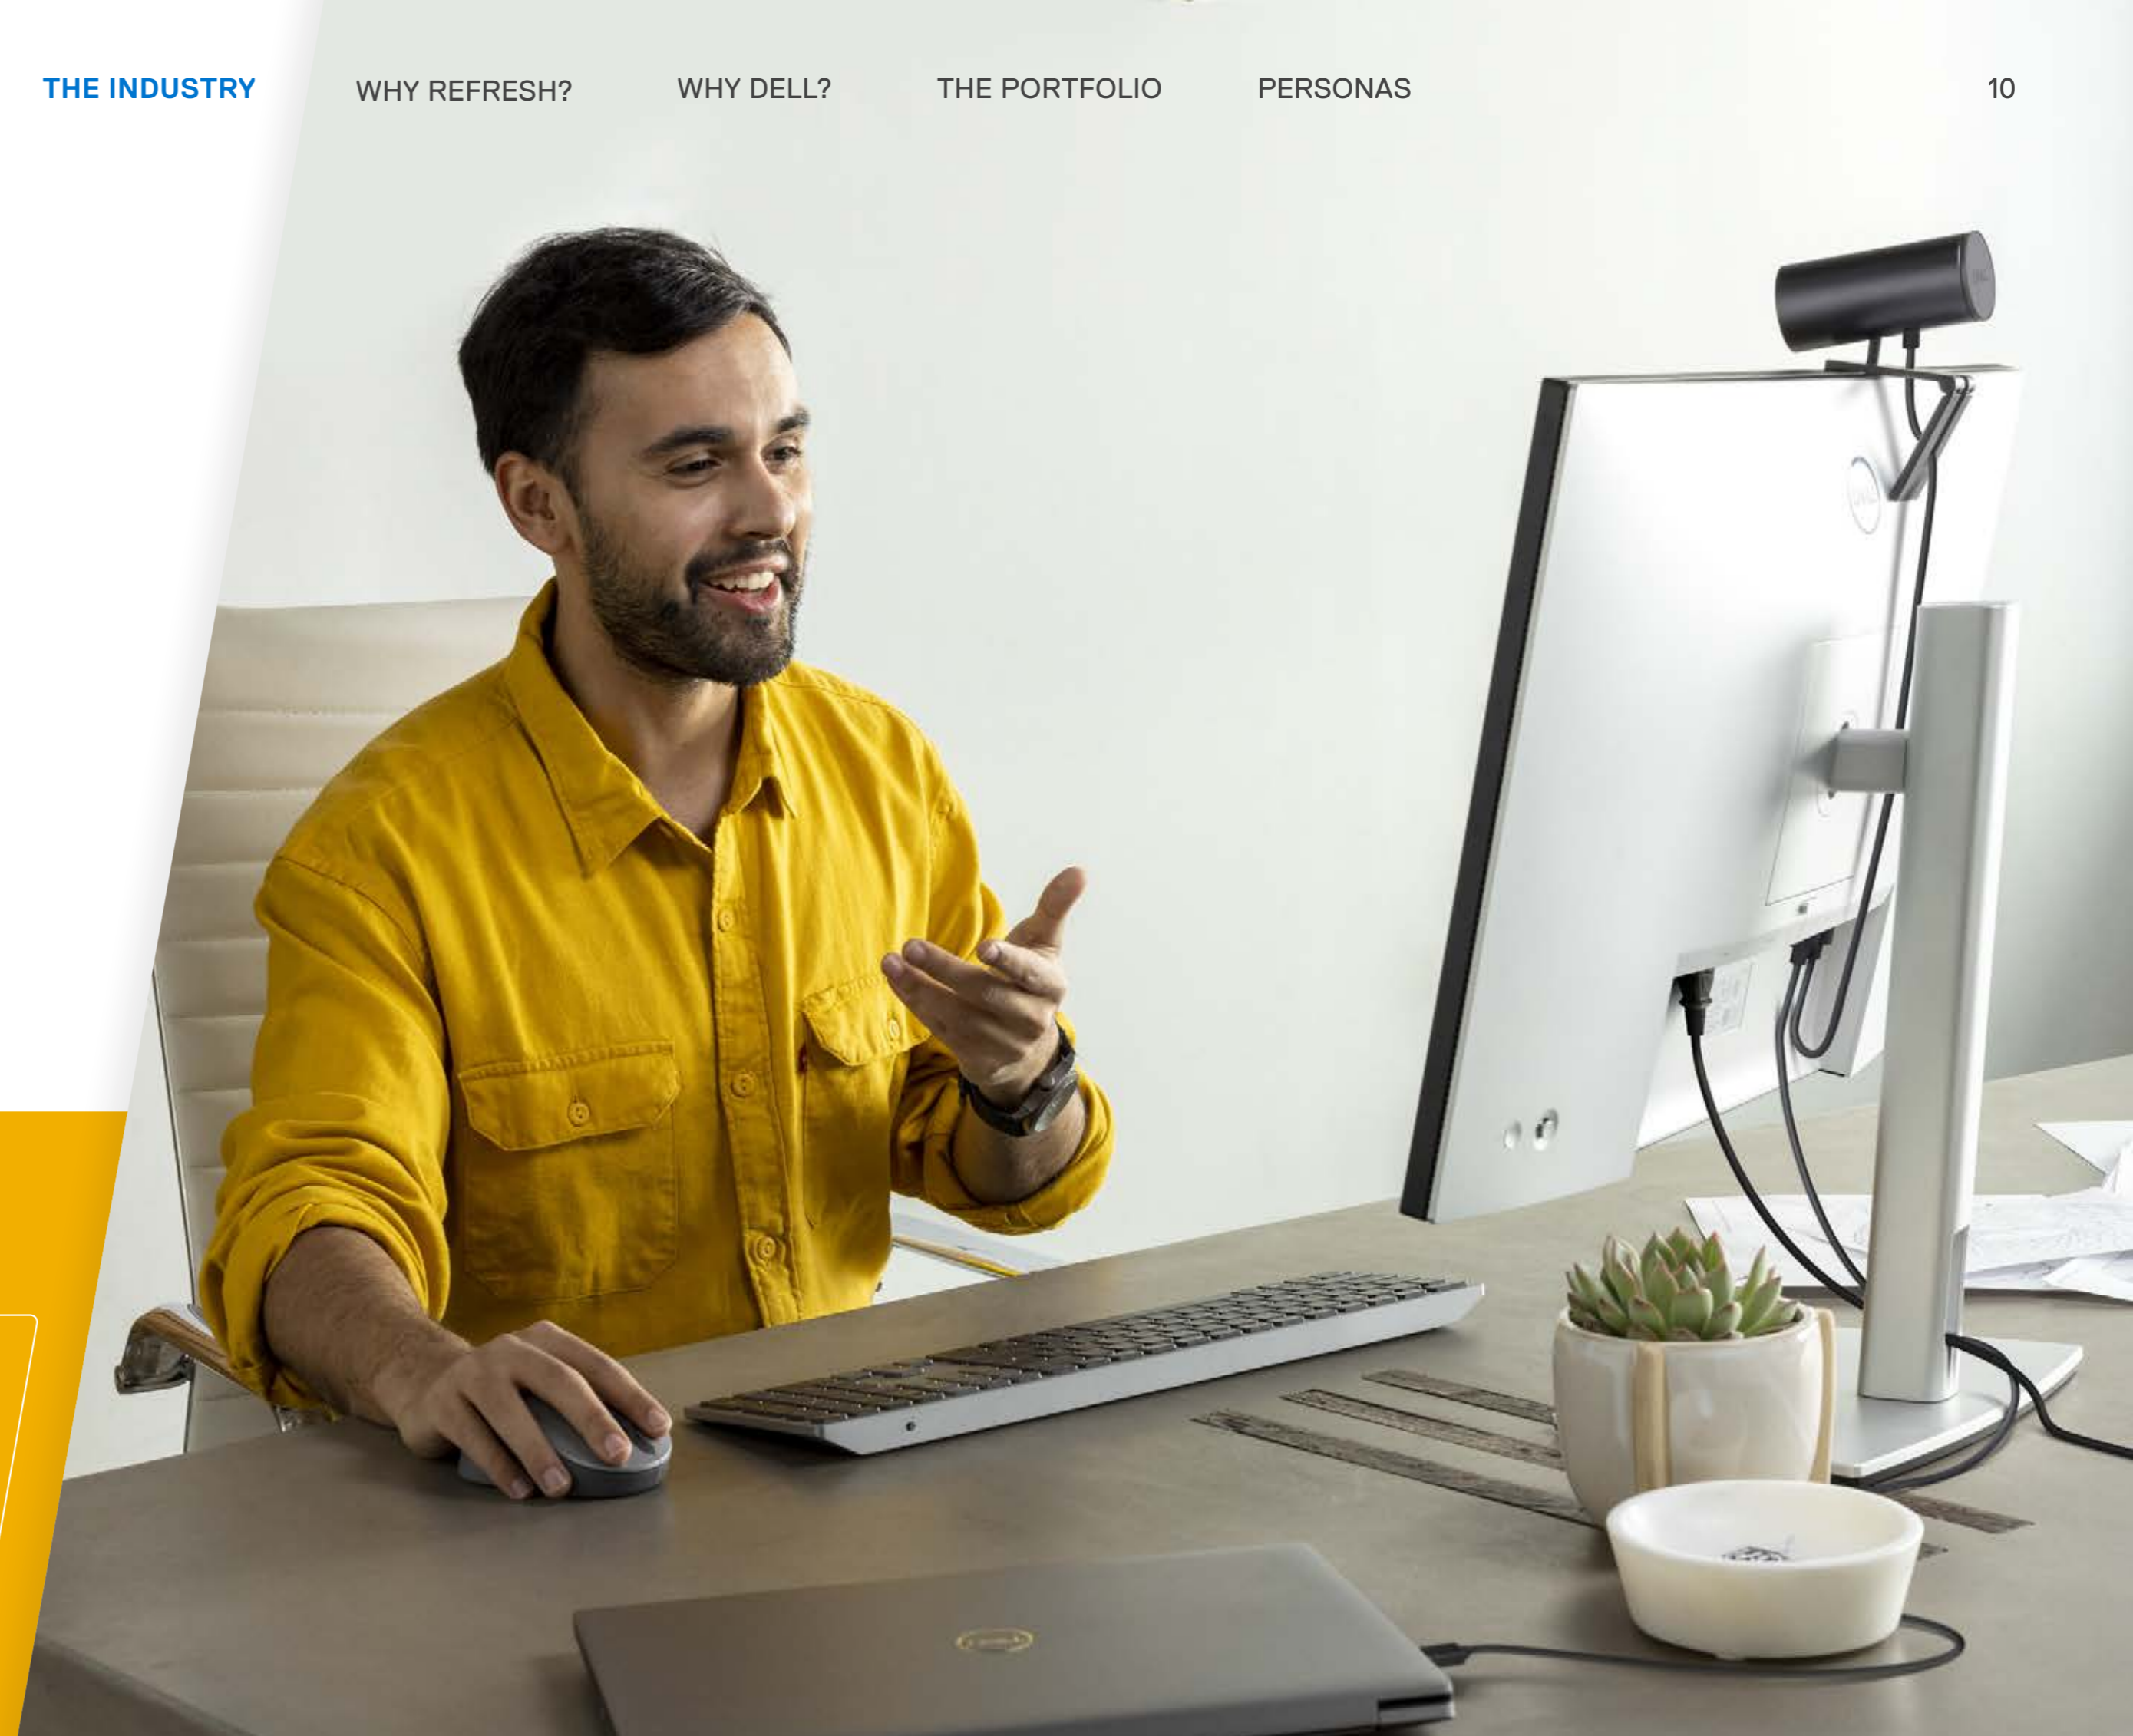

# As if you're together

**Dell Video Conferencing Solutions** that are certified for **Microsoft Teams** bring a new layer of connectivity to your employees, giving them ways of interacting and engaging as if they were in the same room. From scheduled meetings to 'water cooler moments' and catch-ups – all can be delivered through Microsoft Teams to enable inclusive and people-centric collaboration experiences.

## CONCLUSION

The fundamentals of what an office is, are changing. We're seeing a movement from the idea that productivity can only happen in the traditional office, to a greater understanding and adoption of hybrid work solutions – like video conferencing – that enable brainstorms and intelligent collaboration from anywhere. Successful companies will therefore be those that continue modernization by investing in their workforce and in hybrid work solutions.

Learn More

# WHY REFRESH?

Outdated devices may cause poor end-user experiences and expose potential security vulnerabilities. This is why IT leaders should consider the benefits of an **accelerated PC refresh**.

A recent survey led by **Forrester** showed **three major benefits** of accelerated PC refresh in three key areas:

## 1. REDUCES SECURITY COSTS

By refreshing sooner, end users get access to the latest, most secure technology.

**72%** of respondents said their organization experienced improved security from adopting an accelerated PC refresh cycle.\*

## 2. EMPLOYEE EXPERIENCE

**94%** of respondents whose organization adopted an accelerated PC refresh cycle said their company has seen improved employee productivity.\*

**78%** said their organization experienced an increase in its employee Net Promoter Score by adopting a two-year refresh for notebooks.\*

## 3. SUSTAINABILITY

**64%** of respondents said their organizations experienced improved sustainability practices (e.g. internal recycling programs).\*

Download **Forrester Report**

\* Forrester, The Case for an Accelerated PC Refresh Cycle, 2022

# Why refresh to a new Dell PC with Windows 11

**Windows 10 End-of-Support is on the 14<sup>th</sup> of October 2025. To ensure that your employees remain productive, it's important to equip them with the latest Dell device with Intel vPro, that supports Windows 11.**

A good way to stay ahead is new device purchase, as well as Microsoft 365 subscription attach, to let your employees experience the long-term value of owning a secure, modern Dell device with Windows Pro. Enterprises should upgrade their Windows 11 Pro devices to Windows 11 Enterprise, which is an eligible part of the Microsoft 365 E3 subscription.

**3X**

lower cost to buy a newer Windows Pro PC vs. maintaining a 4+ year old PC 4.\*

Improve user productivity with up to 67% faster business application performance vs a three-year-old PC.

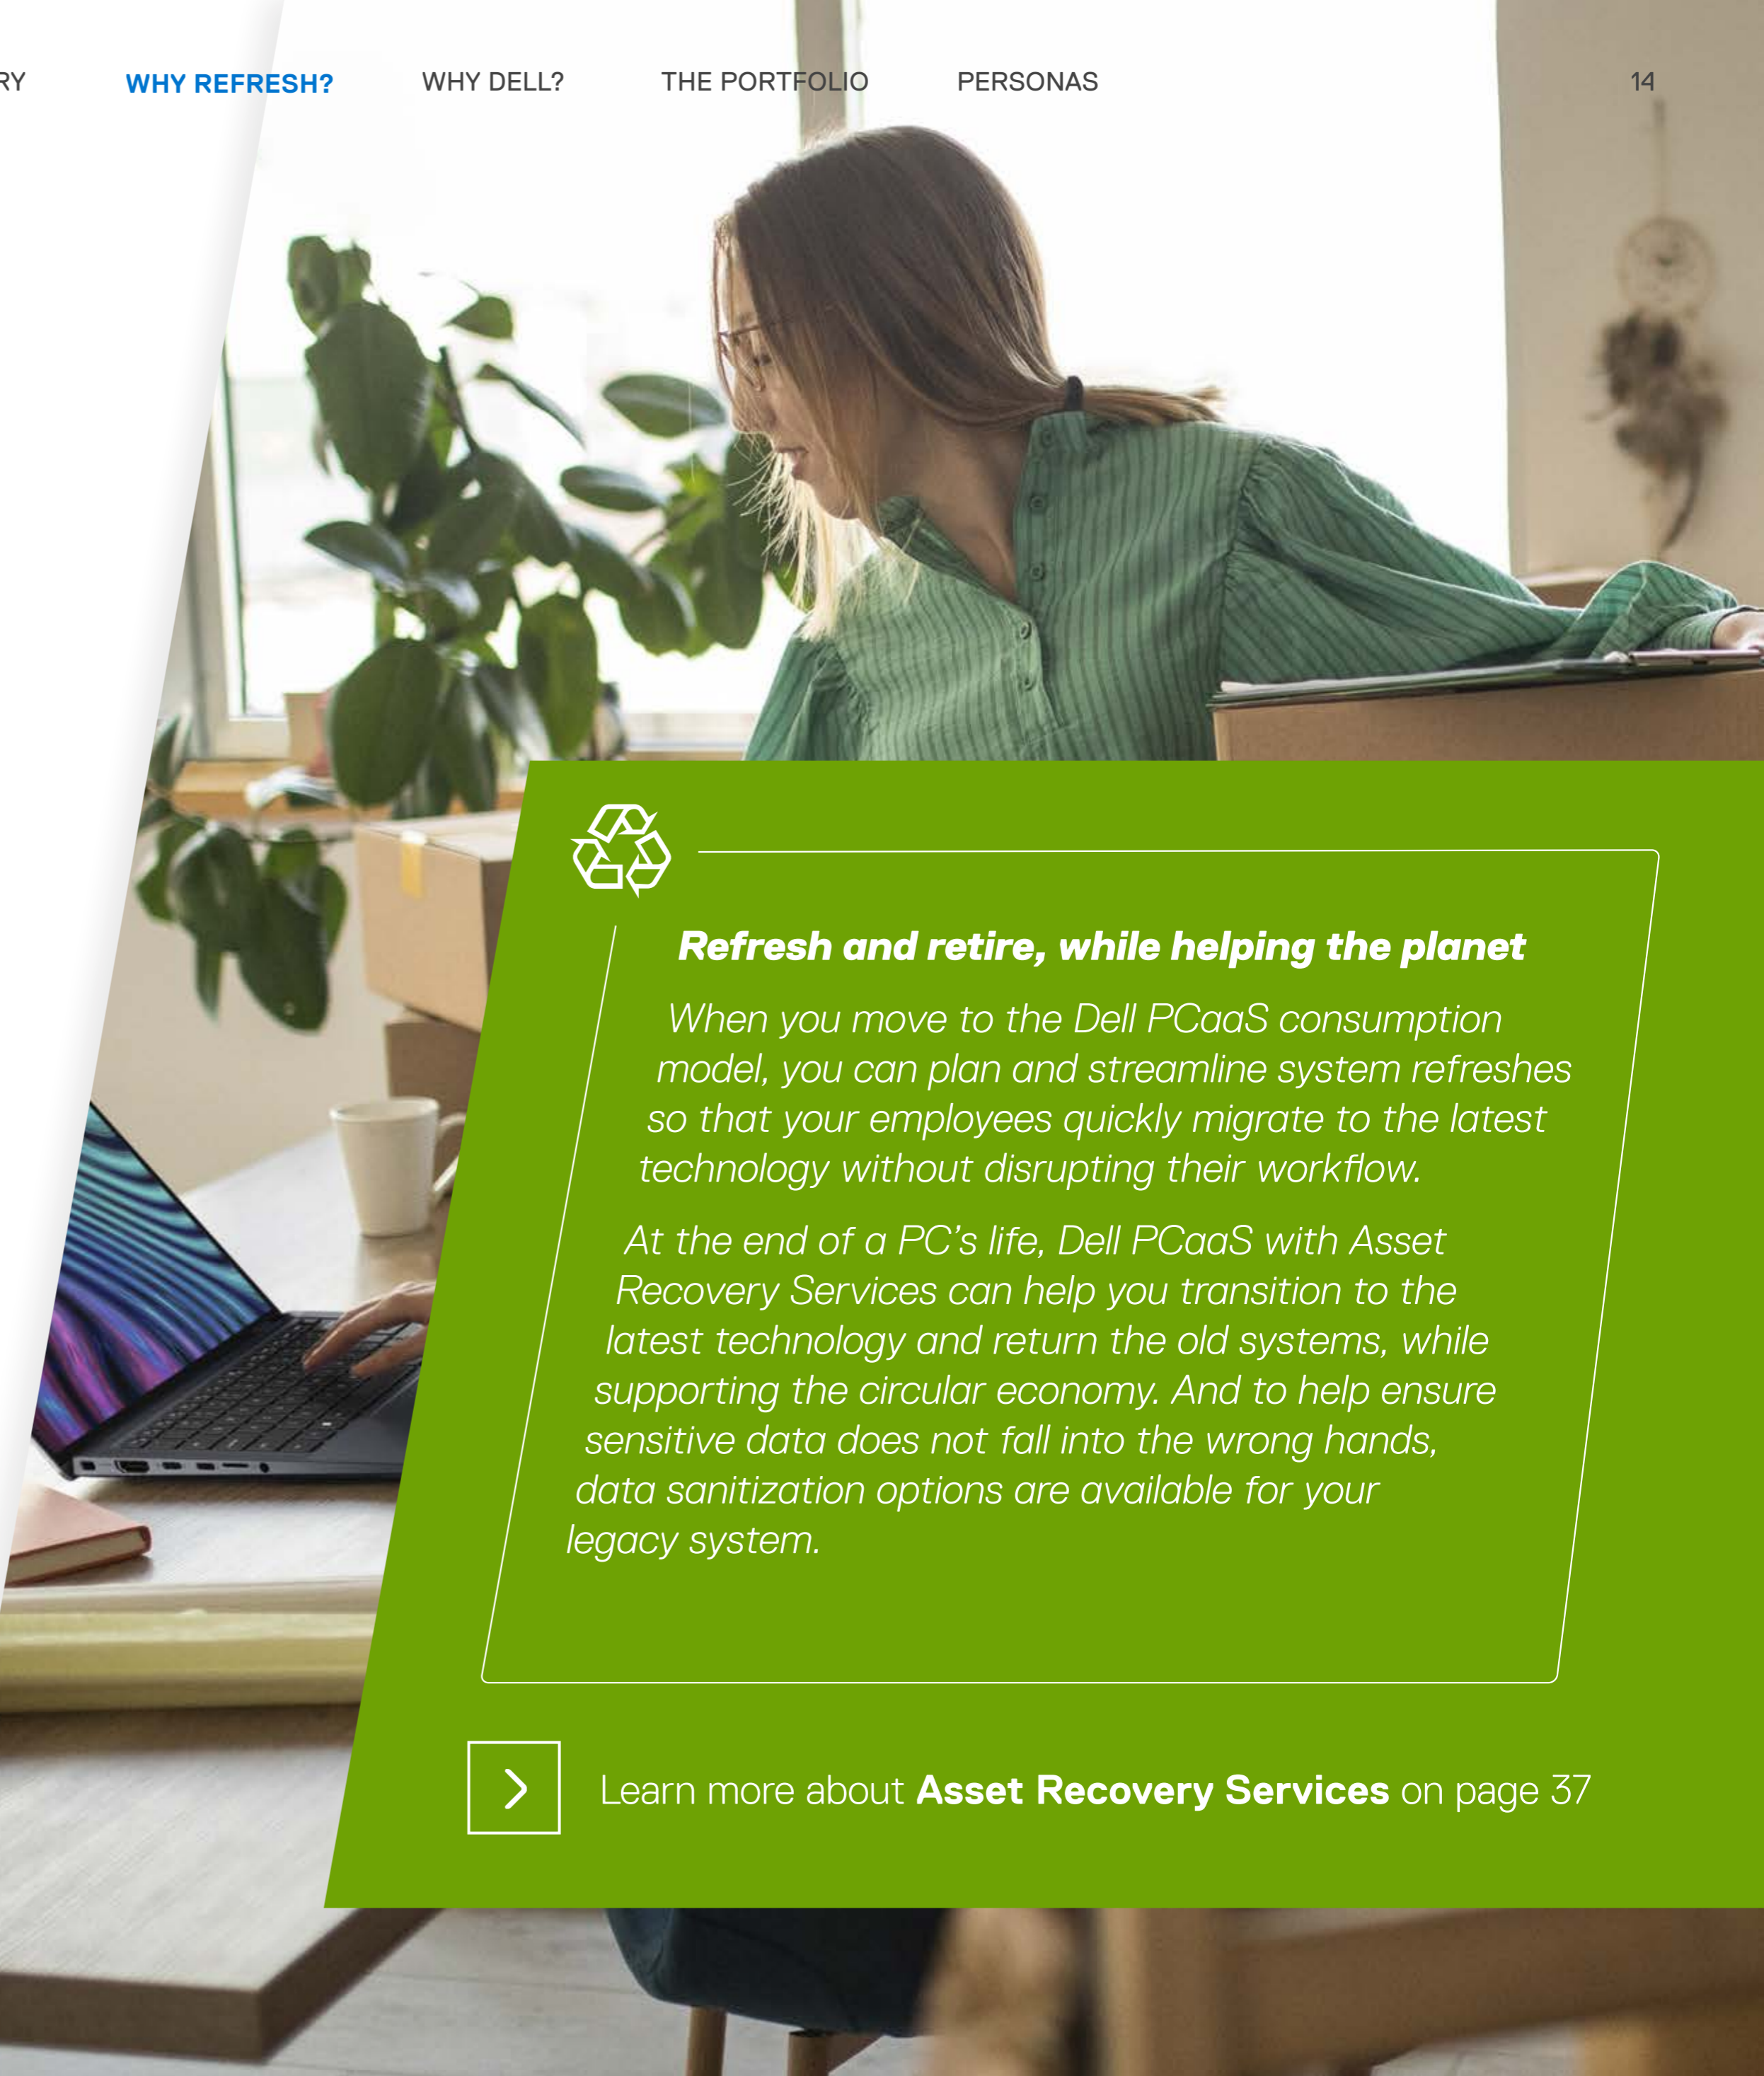

Windows 10 Migration Plan

Upgrade with confidence. With a 99.6% app compatibility rate Microsoft is committed to ensuring you can use existing apps with Windows 11 Pro.\*\*

\*SMB PC Study, Techaisle, 2020 and The Total Economic Impact™ Of Windows Pro Devices, Forrester June 2020

\*\*The App Assure program has worked with thousands of customers and evaluated over 1.1 million apps with a 99.6 percent app compatibility rate. To learn more, visit the App Assure website and see Windows IT Pro Blog post on App Assure.

## **Refresh and retire, while helping the planet**

*When you move to the Dell PCaaS consumption model, you can plan and streamline system refreshes so that your employees quickly migrate to the latest technology without disrupting their workflow.*

*At the end of a PC's life, Dell PCaaS with Asset Recovery Services can help you transition to the latest technology and return the old systems, while supporting the circular economy. And to help ensure sensitive data does not fall into the wrong hands, data sanitization options are available for your legacy system.*

## What's new in Dell Optimizer?

Enjoy seamless, intelligent management through the whole ecosystem with the integration of **Dell Display Manager** and **Dell Peripheral Manager**. The newest release also comes with major collaboration and power management updates.

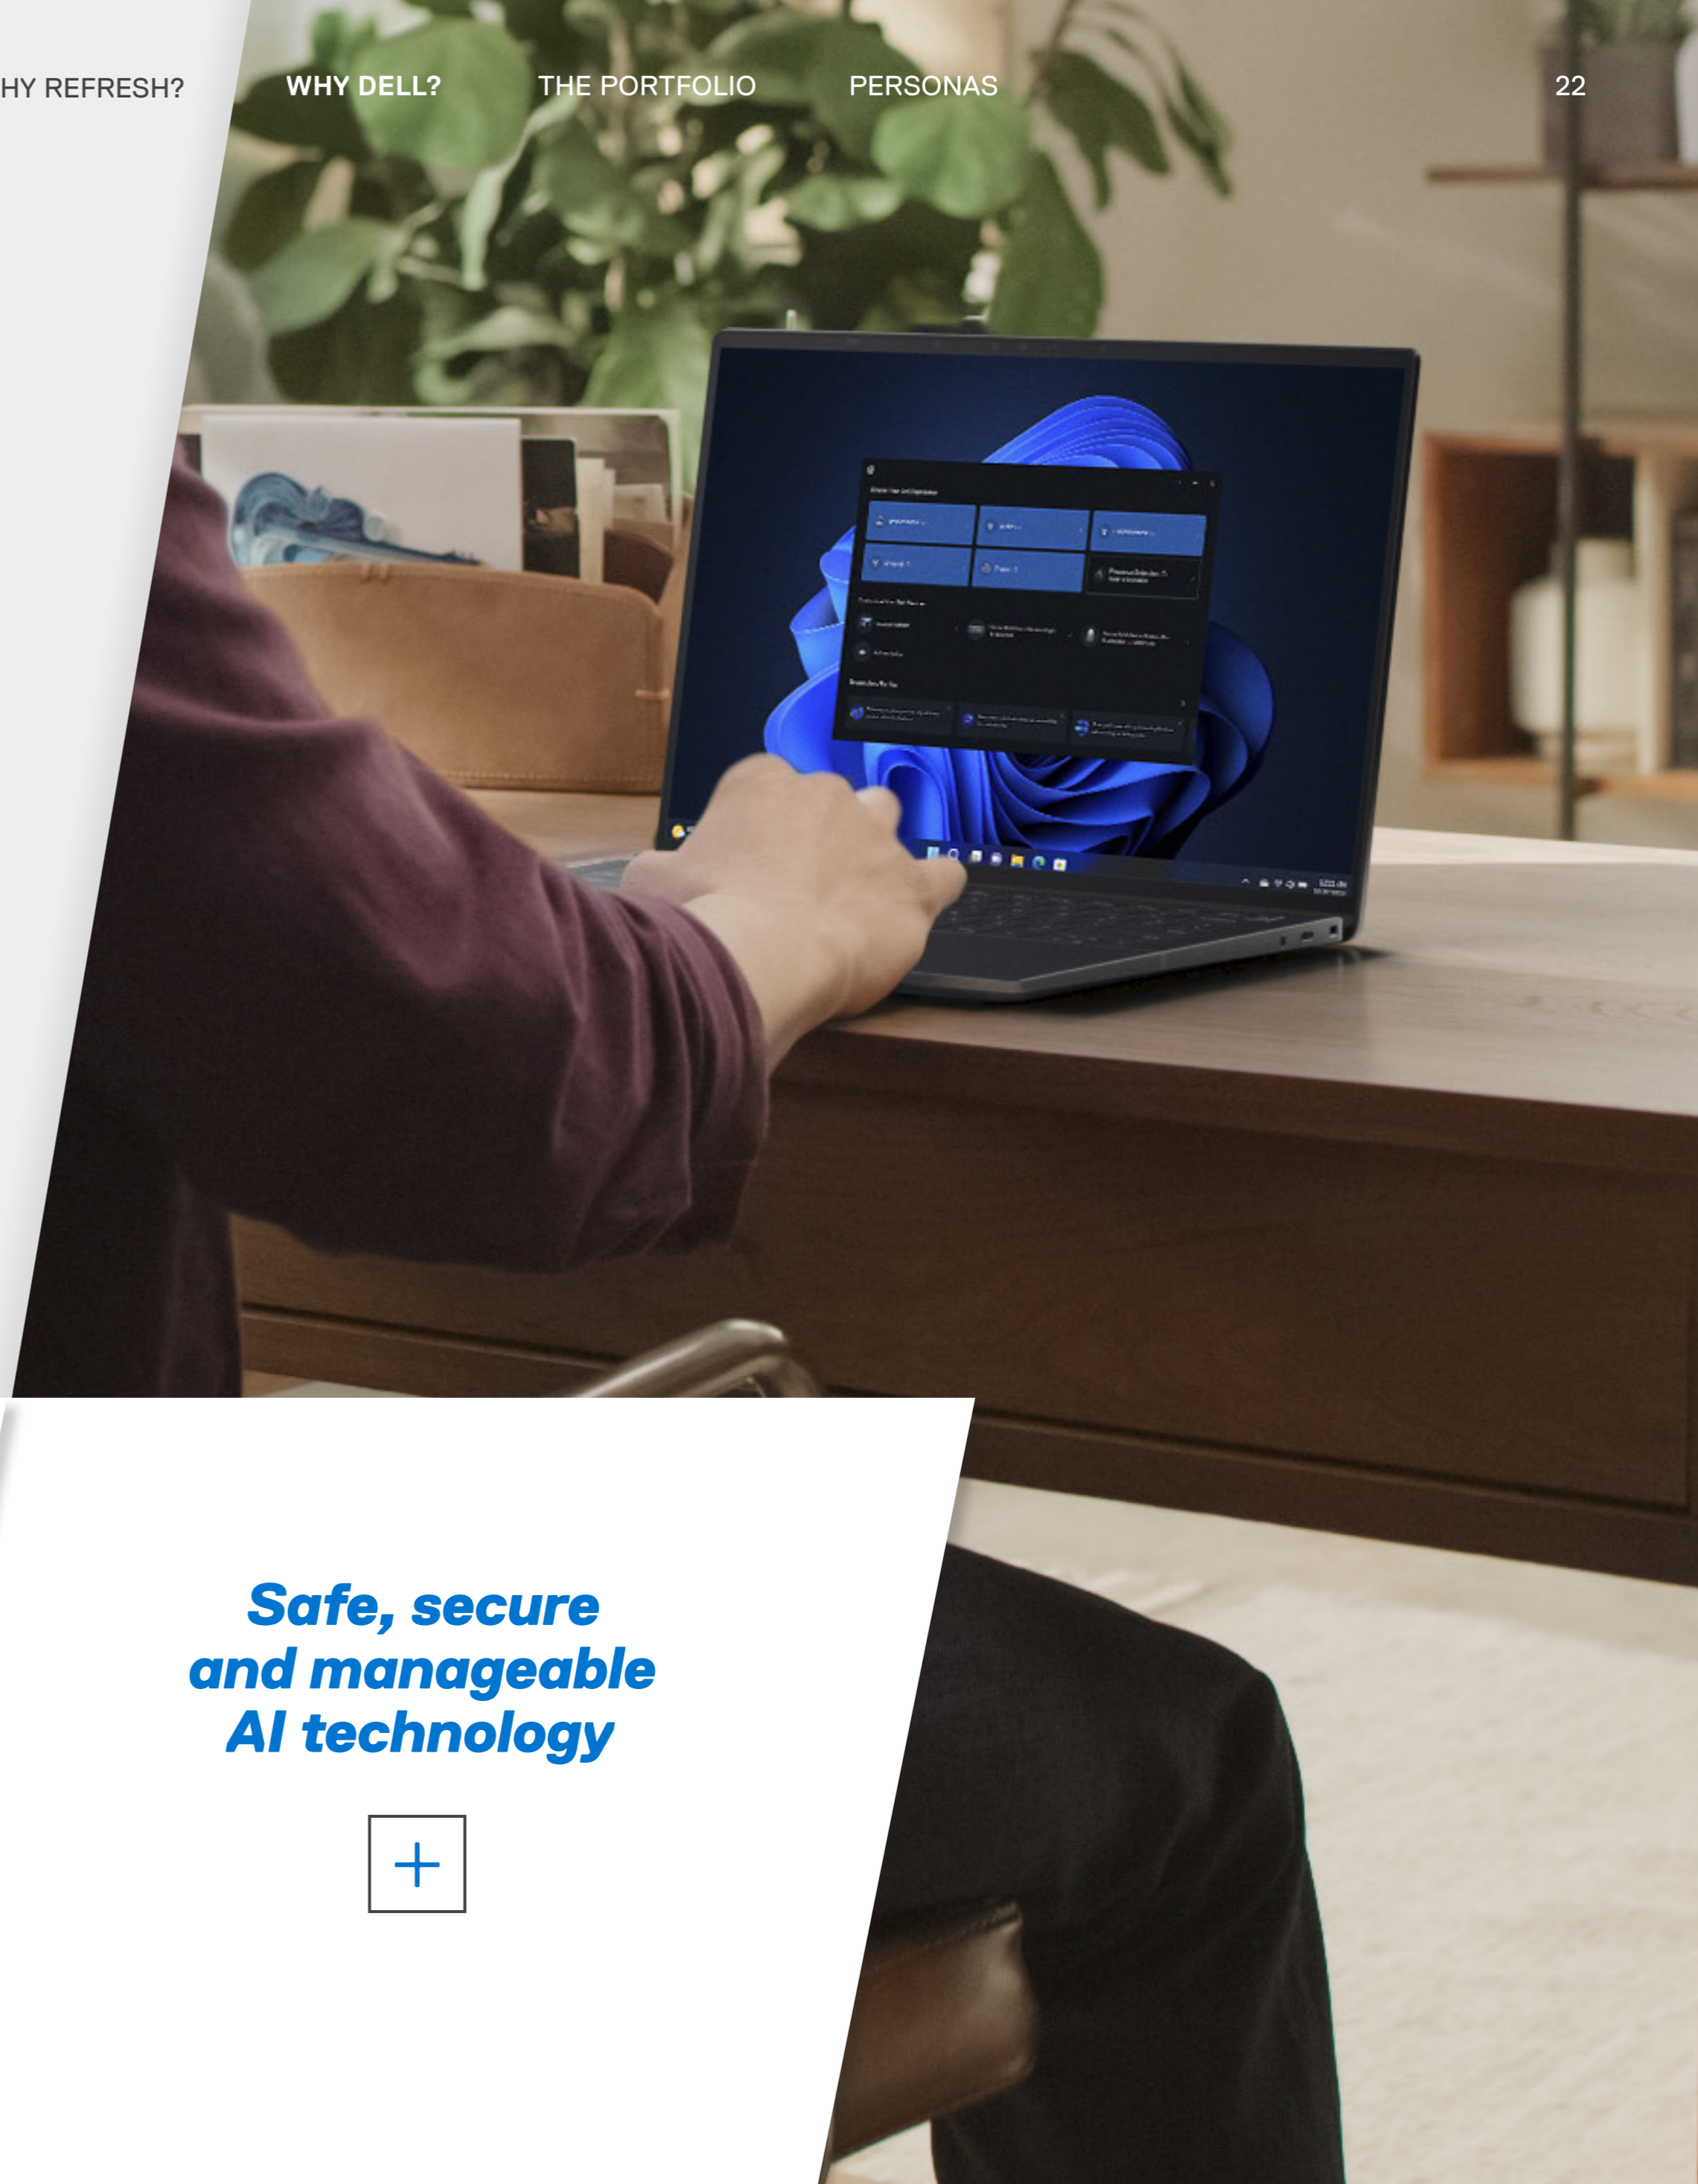

### Your benefits

Elevate your employees' work experience with personalized performance extending from their PC to all the devices within their work ecosystem.

Dell Optimizer with Intel® Energy Performance Optimizer, can also help you **reach your sustainability goals** through Quiet Mode which delivers up to **21%** performance per watt improvement over the default mode and up to **18%** in power savings.\*

\*This is based on a Dell internal study, testing power and performance within our Dell Optimizer power module. [White paper published November 2022](#)

**Click to explore what's new with Dell Optimizer in 2023:**

**Personalized intelligence**

**The world's most intelligent collaboration experience\***

**Safe, secure and manageable AI technology**

\*Based on Dell analysis, November 2022. Collaboration feature availability and functionality may vary by model.

# Personalized intelligence

**Easy pairing and management of Dell displays and peripherals** through the integration of Dell Peripheral Manager and Dell Display Manager

**Intelligent Privacy** intelligently protects digital assets and keeps sensitive data private

**ExpressResponse** seamlessly optimizes and improves performance of in-focus apps based on your usage with minimal impact on battery performance

Enjoy ultimate power optimization with new features from **ExpressCharge** such as advanced charge and charging modes

# The world's most intelligent collaboration experience\*

 **Intelligent Audio** gets a major upgrade with new audio optimization features that enhance the collaboration experience

 Collaboration Touchpad introduces the new haptic feature to reduce accidental triggers of the collaboration touchpad keys\*\*

 **ExpressConnect** powered by Intel® Connectivity Performance Suite, continues to deliver unmatched connectivity with faster data and video downloads through new AI-based tech

 The world's first simultaneous multi-network connection\*\*\* utilizes up to two network connections (wired or wireless) to deliver fast, reliable internet

 Built with sustainability in mind: Dell Optimizer's thermal management settings show that 'Quiet Mode' can deliver up to 2.4W power savings over default mode\*\*\*\*

\* Based on Dell analysis, November 2022. Collaboration feature availability and functionality may vary by model. Collaboration touchpad is available on Latitude 9330 and 9440 models only. # Make an impact on the future

WHEN IT COMES TO LEADING THE WAY IN SUSTAINABILITY, IT DEPARTMENTS ARE PERFECTLY POSITIONED. THE TECHNOLOGIES AND INFRASTRUCTURE YOU CHOOSE FOR YOUR EMPLOYEES CAN HAVE AN OUTSIZED IMPACT ON YOUR COMPANY'S CARBON FOOTPRINT. HERE ARE THREE KEY FACTORS TO CONSIDER WHEN UPDATING YOUR WORKFORCE'S TECHNOLOGY:

- **IT to support Climate Action:** Adopting high-performance computing, AI and ML could help identify where smarter, more sustainable decisions could be made for your organization, in regards to energy efficiency, reduced emissions, and more.

- **More sustainable IT equipment:** Choose a vendor that helps you reach your sustainability goals through products made and packaged with sustainable/recycled materials, products that allow for more productivity, and products that are easy to repair/reuse.

- **Flexibility drives sustainability:** By implementing the Dell PCaaS procurement model, it allows your organization to scale as it grows, it can reduce waste, ensure your assets are recovered and reused through end-of-life management, and potentially realize significant cost savings for you.

## ***Making sustainability a top business priority***

IDC PREDICTS THAT BY 2024, 75% OF G2000 DIGITAL INFRASTRUCTURE REQUESTS FOR PROPOSALS WILL REQUIRE VENDORS TO PROVE PROGRESS ON ESG AND SUSTAINABILITY INITIATIVES WITH DATA, AS CIOS RELY ON INFRASTRUCTURE VENDORS TO HELP MEET ESG GOALS.\*

Download **the brochure**

Read More about our **2030 Moonshot Goal**

# 2030 Moonshot Goal

Dell Technologies and Intel are working together to help create a greener tomorrow. By scrutinising our processes and products, we're taking an ambitious approach to sustainability.

By 2030, for every product a customer buys, Dell Technologies pledges to reuse or recycle an equivalent product, while Intel will send zero waste to landfill.

100% of Dell packaging will be made from recycled or renewable material.

More than half of Dell's product content will be made from recycled or renewable material.

Intel will achieve net positive water use by conserving 60 billion gallons of water and will use 100% renewable energy across operations.

Intel commits to a 10% reduction in absolute Scope 1 and 2 greenhouse gas emissions.

# Asset Recovery Services

Dealing with IT equipment that's no longer needed can be daunting because of the complicated logistics and the risks associated with data security and environmental compliance.

With Dell Asset Recovery Services, you can securely and responsibly retire your old assets while protecting both your businesses and the planet. And if you do it when your assets are at their maximum value, you can transition to what's next with more money in your pocket.

## Benefits of Asset Recovery Services

### **THE DELL TECHNOLOGIES APPROACH TO SUPPLY CHAIN SUSTAINABILITY**

Dell Technologies operates one of the largest social and environmental responsibility (SER) assurance and engagement programs in the technology sector. Through SER initiatives, Dell proactively identifies and mitigates issues throughout the tiers of its supply chain, including final assembly, direct and sub-tier suppliers.

Today, Dell only works with suppliers that demonstrate varying levels of maturity in their own social and environmental responsibility (SER) programs. Recognizing this, Dell focuses on building sustainable progress with its suppliers through continuous improvement.

# Benefits of Asset Recovery Services

Secure your sensitive and important data

Address corporate environmental compliance concerns and reduce overall footprint

Reinvest value from aging equipment to grow your businesses

Gain control and insight through a centralized online portal

# Dell Devices with Intel vPro & Windows 11 Pro for Business

 Empower your workforce for secure hybrid work by boosting productivity and enabling easier collaboration. Windows 11 Dell Devices with Intel vPro® provide multi-layered, hardware- and software-based security, world-class reliability, long battery life and great performance.

- **Help protect your business** with Intel vPro PCs, that use a multi-layered Advanced Hardware Shield for enhanced security, even below the OS level.
- Devices can **enable protections** like Windows Hello to reduce the risk of an identity compromise by up to 99.9%, compared to using passwords alone, with Multi Factor Authentication (MFA) & Device Encryption.\*
- **Optimize available desktop space** with **snap layouts**, a Windows 11 productivity feature which adjusts with a click or touch to customize the desktop and keep projects organized, no matter the user's screen size.
- Microsoft Teams & Dell modern devices deliver **smarter video conferencing**, including intelligent noise cancelling, mute/unmute and background blur. On supporting devices, AI enhances video conferencing with features like automatic framing.
- **Longer battery life** with more efficient silicon and screen technologies, better batteries, and smarter power management.\*\*
- With **more cores and new process technology**, new Intel vPro can handle more demanding workloads than previous Intel processors.

Go further with:

## Microsoft M365

 Do more with less with Microsoft M365, an integrated solution that brings together productivity tools, security and device management, while unlocking the benefits of Cloud.

- **Eliminate redundant solutions:** Cut licensing costs by as much as 60%\*\*\* through consolidation with Microsoft 365.
- **Protect hybrid workforces:** Enable zero-trust security and reduce data breach risk by 45%.\*\*\*\*
- **Simplify IT management:** Automate system updates and reduce IT management costs by 40%.\*\*\*\*\* Find which option is right for you here for [business](#) & [enterprise](#).

## Intel vPro

 Intel vPro® uses multiple layers of security to create a Hardware Shield that helps keep businesses safe. Help protect your business with Intel vPro PCs, that use a multi-layered Advanced Hardware Shield for enhanced security, even below the OS level.

## Microsoft Viva

An employee experience platform that brings together communications, knowledge, learning, resources, and insights. Powered by Microsoft M365 and experienced primarily through Microsoft Teams, Viva fosters a culture where people and teams are empowered to be their best from anywhere.

## Dell Modern Device Services

 **Dell ProDeploy Client Suite**

- **Offer highlights:** Flexibility to choose the specific deployment service level that meets your needs.
- **How it works:** From the TechDirect portal, you can direct every detail of your deployment with an unprecedented level of control, automation & simplicity. Dell Technologies experts & partners lead deployments from project management through planning, configuration & installation.
- **Benefits:** Deploy PCs with greater speed, less effort & more control

 **Dell Connected Configuration**

- **Offer highlights:** Secure VPN connection to Dell facilities. Scale based on capacity needs. Per box fee.
- **How it works:** Extend your network infrastructure to Dell. Your data remains on your servers.
- **Benefits:** Use your distribution point in our factory to configure your BIOS & load your image onto new systems & perform a Domain join for each individual worker. Get real time control of each systems configuration as it's being built.

 **Dell Imaging Services**

- **Offer highlights:** Create and deploy an image across a variety of different systems.
- **How it works:** We can build static images with technologies such as Ghost or WIM. Or we can build cross-platform images with ImageAssist that we dynamically update.
- **Benefits:** We deploy your image as provided which shortens imaging process from several weeks to a few days.

# Windows 11 Pro Security with Intel vPro for our most secure PCs ever

Businesses report 58% drop in security incidents with Windows 11 Pro devices.\*

## Security out-of-the-box

Windows 11 offers a higher security baseline than Windows 10, with new requirements for default protection that is built-in and enabled.

- **Protect data and identities** with authentication based on Windows Hello for business, alongside advanced hardware-based security features in Windows 11 Pro on a modern Dell Device
- **Windows Hello for Business** uses face and fingerprint readers, replace passwords and help protect data while enabling access anywhere
- Data and network protection supported by **hardware-based root-of-trust** that helps maintain and verify device integrity

## Protect against evolving threats

Shield valuable data and enable secure hybrid work with the latest advanced security that businesses say results in 2.8X fewer instances of identity theft.\*\*

- Protect credentials with **enhanced phishing protection** in Microsoft Defender Smartscreen
- Help protect business information – even on lost or stolen devices – with **BitLocker encryption**
- Get more protection from untrusted sources by opening files and websites in an isolated container with **Microsoft Defender Application Guard**

## Modern security management

Streamline security management from anywhere and extend security to the cloud. Deploy with confidence, knowing that 99.6% of applications are compatible with Windows 11.\*\*\*

- **Ensure policy compliance for onsite and remote employees** with Microsoft Endpoint Manager
- Deploy devices preconfigured with corporate security policies using **Windows Autopilot<sup>4</sup>** and zero-touch deployment\*\*\*\*
- Help **prevent malicious code** and protect against malware and other untrusted software with Windows Defender Application Control

**Intel vPro<sup>®</sup> uses multiple layers of security to create a Hardware Shield that helps keep businesses safe.**

### Below-the-OS security

Intel vPro helps prevent attacks from modifying the BIOS itself or altering the boot process by inserting malware. Trust that the PC can begin booting the OS without having been compromised during the pre-boot process.

- Protect the BIOS and other firmware against attack .
- Below-the-OS security features are turned on at the factory for security out-of-the-box

### Application and Data Protection features

Application and Data Protection features augment the below-the-OS layer.

- The Operating System, applications and data are protected by virtualization and encryption
- Application and Data Protection features are supported by Windows 10 and 11, either by default or via the Windows Security Center

### Advanced Threat Protection

Advanced Threat Protection capabilities look for emerging threats by analyzing software behavior.

- Accelerated memory scanning looks for malware in DRAM, leveraging artificial intelligence to detect threatening software that hasn't been identified yet
- Code-flow enforcement mechanisms ensure malware doesn't execute legitimate software out of order to launch an attack

# Dell Technologies, Intel and Microsoft share a commitment to sustainability

Microsoft, Intel and Dell Technologies have together set strong commitments to sustainability. These commitments drive the creation of technology that help you achieve your sustainability and business goals.

There are a number of common focus areas across the respective companies, including:

**Reducing data center energy usage**

**Investing in sustainable innovation across products and packaging**

**Driving supply chain optimization**

The new Windows 11 is now also **carbon aware**, making it easier for devices to reduce carbon emissions:

- Windows Update will schedule installations at specific times of the day when a higher proportion of electricity is coming from lower-carbon sources on the electric grid\*
- New changes to the default power settings for Screen and sleep to help reduce carbon emissions when computers are idle

Delivering action on climate change and reducing environmental impact will require that we work together, partnering for a better, more sustainable future. Watch this video from Microsoft to learn more about how they aspire to reach their sustainability goals by 2030:

Watch Video

# The best Displays & Client Peripherals for your Dell Latitude

## Dell Premier Collaboration Keyboard – KB900

Innovative keyboard with **dual connectivity** and dedicated **touch controls** for effortless collaboration. Paired with the ultra-precise wireless mouse, this duo puts **increased productivity** and **effortless team collaboration** right at your fingertips.

## Dell Premier Rechargeable Mouse – MS900

Masterfully crafted for optimal all-day comfort and ease-of-use, this premium mouse features **multi-device pairing** with Dell Peripheral Manager, **adjustable 8000 DPI** at 400 increment, and **long-lasting battery** life that works up to 3 months with a full charge.

## Dell UltraSharp 49 Curved Monitor – U4924DW

A revolutionary 49-inch dual QHD curved monitor with ultra-wide views, multitasking features and seamless connectivity for an immersive work experience.

## Dell UltraSharp 4K Webcam – WB7022

Experience the best image quality in its class with **the world's most intelligent 4K webcam**. 4K High Dynamic Range (HDR) and 4K Sony STARVIS™ CMOS sensor deliver crystal-clear video and true-to-life color.\*

## Dell Premier Multi-Device Wireless Keyboard and Mouse - KM7321W

Seamlessly connect up to three devices with this premium keyboard and mouse combo. The dual mode RF 2.4 GHz and Bluetooth 5.0 connectivity lets you effortlessly switch across devices with the connection-mode key or button on your keyboard and mouse.

## Dell Premier Wireless ANC Headset – WL7022

Collaborate with ease anywhere with this **Teams certified** wireless headset which offers **active noise cancellation** and smart sensors that automatically mute and unmute on calls.

## Dell Thunderbolt™ 4 Dock – WD22TB4

Modular thunderbolt dock with swappable modules for easy upgrades and SuperBoost technologies for fast charging

## Dell UltraSharp 32 4K USB-C Hub Monitor – U3224KB

The ultimate productivity powerhouse packed with advanced features. Combining exceptional clarity and details with **4K resolution**, and future-ready connectivity with **USB-C** connection, the U3224KB raises the bar for innovation

\* Based on internal analysis of external 4K personal conferencing webcams, April 2021.

# DELL OPTIPILEX

THE INDUSTRY'S MOST SECURE AND INTELLIGENT COMMERCIAL PC FAMILY\*

What's new with Dell OptiPlex

Displays & Client Peripherals for Dell OptiPlex

### Dell OptiPlex All-in-One

Collaborate seamlessly and securely with the smartest Dell OptiPlex All-in-One yet.

### Dell OptiPlex Tower

Ultimate desktop configurability.

### Dell OptiPlex Small Form Factor

Compact design with no-compromise performance.

### Dell OptiPlex Micro

Super compact desktop with the most versatile mounting options.

### Dell OptiPlex Thin Client

The best-performing ultra compact desktop thin client, built for Dell Cloud Client Workspace solutions. If you choose this solution, consider also getting Dell Integrated System for Microsoft Azure Stack HCI for additional benefits.

Based on Dell analysis, October 2022. Dell Optimizer not available in previous OptiPlex 3000 series. Most secure PCs - based on Dell internal analysis September 2022. Not all features available with all PCs. Additional purchase required for some features.

# What's new with Dell OptiPlex

## Dell OptiPlex All-in-One

**Ideal for business collaborators who require powerful, trusted devices for the best conferencing experiences, plus customized and comfortable workspaces for all-day productivity.**

- Beautiful, clean-desk design in a minimal footprint
- Best collaboration with built-in camera and speakers
- Touch and non-touch options
- Easy deployment and setup
- Great for small collaboration spaces
- Supports Dell Cloud Client Workspace solutions
- With the Intel vPro platform powered by the new 13<sup>th</sup> Gen Intel Core processor

## Dell OptiPlex Tower

**Ideal for users who need the most performance, expandability, and immersive productivity options from their OptiPlex.**

- Ideal for organizations ready to embrace VR content to stand out from the competition
- Target audience: Secure fixed-point clients such as retail, healthcare, education, and government training fields
- Full-power, immersive workflow with seamless interaction of devices
- Built secure and with sustainability in mind
- Most performance and graphics options for immersive productivity
- Ultimate configurability with the most storage and expansion options
- With the Intel vPro platform powered by the new 13<sup>th</sup> Gen Intel Core processors

## Dell OptiPlex Small Form Factor

**Dell OptiPlex Small Form Factor strikes a balance between the right performance and the right size at the best value for its user.**

- High performance options in a slim design
- Fully customized, productive workflow with seamless interaction of devices
- Clean-desk solution with Small Form Factor All-in-One Stand
- Highly expandable with no compromise on port options
- Built secure and with sustainability in mind
- Easy to manage
- With the Intel vPro platform powered by the new 13<sup>th</sup> Gen Intel Core processor

## Dell OptiPlex Micro

**A tiny, yet mighty, clean desk solution with the most flexible mounting options, getting the PC out of the way so users can stay focused and work efficiently.**

- Maximum productivity in a cost-effective, ultra-compact desktop
- Flexible “all-in-one” solution with Micro All-in-One Stand and custom mounts
- New one cable solution provides seamless connection to displays and peripherals, and a clutter-free, clean desk
- Mount behind large Dell Monitors in conferencing rooms/large collaboration spaces
- Easy to manage and built secure
- Supports Dell Cloud Client Workspace solutions
- With the Intel vPro platform powered by the new 13<sup>th</sup> Gen Intel Core processors

## Dell OptiPlex Thin Client

**Ideal for deploying VDI, DaaS or SaaS for office, remote and hybrid workers with thin client and cloud client solutions.**

- Support virtual workspaces and unified communication solutions
- Compact, fan-less design delivers a quiet, durable computing experience
- Long lifecycle with 3-year next business day support
- Optimized for Dell Cloud Client Workspace software solutions
- Built secure for the modern worker
- A more productive user experience from anywhere
- With the Intel vPro platform powered by the new 13<sup>th</sup> Gen Intel Core processor

# The best Displays & Client Peripherals for your Dell OptiPlex

## Dell OptiPlex Micro Recommended Ecosystem

### Dell Wireless Keyboard and Mouse - KM7321W and KM5221W

Compact, slim-line wireless keyboard with chiclet keys and a comfortable optical mouse.

### Dell P/U/C Series Monitors

Provides a near-seamless dual or triple-display experience with a full range of adjustable features, InfinityEdge\* and 3-sided ultra narrow borders, and multiple connectivity ports.

### Dell OptiPlex SFF and Micro Mounts

A choice of up to seven versatile mounting solutions to provide power and flexibility to any workspace.

### Dell Pro Webcam – WB5023

2K webcam with superior webcam technology for high quality performance with competitive pricing.

### Dell Speakerphone – SP3022

Rich, clear sound with the world's most intelligent Microsoft Teams-certified speakerphone.\*\*

\* Virtually borderless InfinityEdge is available on UltraSharp monitors
