**DELL HYBRID CLIENT**

**KEY USES**

**Performance-oriented power worker accessing a rich mix of local, cloud-based and virtualized apps**
- Purpose built to support the next generation of cloud applications with local offloading of collaboration tools
- Built-in VDI protocols to connect to a remote workstation and perform graphic-intensive work
- Workstation-class performance packed into an ultra small form factor with the Precision 3260 Compact Workstation supporting up to 7 displays

**Knowledge worker accessing cloud-based resources**
- Out of the box support for cloud-based productivity applications
- Single-sign-on across VDI and cloud resources
- Select the Latitude 3440 for remote work or a flexible space saving solution with the OptiPlex All-in-One
- Enable a productive experience with the OptiPlex Micro supporting up to four display to view more information on screen without minimizing or closing applications
- Centralized management of the user’s devices and application orchestration from the cloud

**Task worker accessing VDI applications and transitioning to cloud resources**
- With support for up to 3 displays, the OptiPlex 3000 Thin Client is a highly managed, cost-effective client device
- Full-featured local browser with security parameters centrally managed (restrict/allow URLs, restrict plugins,...)
- Out of the box access to cloud-based productivity apps and support for local Linux apps reducing the strain on VDI back-end resources
- Built-in support for VDI brokers from leading vendors (Citrix, VMware and Microsoft)
- Easy to adopt, leveraging local Active Directory or sync on-premises Azure AD
