Dell Optimizer
We make it intelligent.
You make it yours.

Dell Optimizer revolutionizes the way you work by fueling the world’s most intelligent PCs. It is the only business, AI-based optimization software that learns and responds to the way you work and is designed to automatically improve application performance, audio settings and network connectivity—all in the background while you’re working.

Accomplish anything with built-in intelligence that learns and adapts.

**Improved performance**
ExpressResponse analyzes how you use your preferred apps to boost performance.

**Enhanced audio**
Intelligent Audio delivers audio and mic enhancements and reduces background noise using Neural noise cancellation.

**Unmatched connectivity**
ExpressConnect provides the world’s first simultaneous multi-network connection that joins the best network available.

**Simplified manageability**
Elevate work experience with an easy-to-manage application that provides a seamless experience for both end-users and IT decision-makers.
