Improved usability

More navigation space with large touchpad

Scalable storage

32GB eMMC storage, up to 256GB SSD PCIe

World-class security

Work securely thanks to ChromeOS with built-in security features:

- Virus protection and Verified Boot, a rigorous and seamless security update in the background
- H1B3C, the Google-designed security chip
- Sandboxing keeps software on the device separate, so if one part gets infected, the rest stays safe
- Multi-user support means that a single Chromebook can support multiple users while maintaining each person's privacy

And, experience additional peace of mind with AMD Ryzen™ and Athlon™ built-in security features including “Zen” architecture and AMD Secure Processor.

Leading-edge sustainability

Closed-loop magnets and 50% PCR plastics across LCD cover, bezel, palm rest and bottom cover. EPEAT Gold⁵, Energy Star and TCO 9 certified¹⁰. Ships in packaging made from 100% recycled or renewable materials and is 100% recyclable¹¹. Plus, multipack options are available, resulting in even less waste.

3445

Chrome Enterprise Upgrade, Chrome Education Upgrade, and zero-touch enrollment.

Chrome Enterprise Upgrade

Provides a simple and secure way for IT to secure, orchestrate and power the cloud workforce.

Drop ship devices

Drop ship devices directly to employees ready to be signed in with zero-touch enrollment.

Advanced security

Remotely wipe or disable devices, force re-enrollment, and enable sign-in restrictions to ensure data stays in the right hands.

Manage updates at your own pace

Choose to roll out feature updates gradually or automatically with the added option for long-term support channel.

Reporting and insights

Pull insightful reports including 7-day active metrics, OS versions, and crash reports.

Granular controls

Enable single sign-on, identity-free login, and configure printer and Wi-Fi settings.

Scalable, cloud-first management

Manage devices remotely in the Google Admin console, use third-party UEM solutions, or the Chrome Policy API to manage at scale.

Chrome Education Upgrade

Unlock the capabilities of ChromeOS and give educators the freedom to deliver better learning outcomes

Managed access

Take control of what resources users can access. Block end users from logging into Chromebooks, restrict access to certain sites and content, and enable identity-free usage for shared devices.

Simplified deployment

Provide IT with access to device policies and fleet oversight capabilities for both school-issued and student-owned devices, all from the cloud-based Google Admin console.

Advanced security

Pull insightful reports including 7-day active metrics, OS versions, and crash reports.

24/7 IT admin support

Enable single sign-on, identity-free login, and configure printer and Wi-Fi settings.

Zero-touch enrollment

IT departments can drop ship ChromeOS devices that will automatically enroll into enterprise administration as soon as the end user connects to the internet.

Really ready out of the box

Once an end user receives the device, all they need to do is get online, log in and they are ready to go.

No need for manual configuration

Zero-touch enrollment ensures that ChromeOS devices are registered to automatically enroll once in the hand of the end users. This eliminates the need for manual device enrollment by IT departments or end users.

Built with security

Hardware-backed attestation secures the identity of each device and prevents attackers from spoofing devices
