Sustainability on Dell Latitude 5000 series

Delivering innovative technology and solutions to reduce our environmental impact, for ourselves and our customers.

**Sustainable Materials**

Our use of sustainable materials helps reduce the environmental impact of making and recycling them.*

- 20% recycled carbon fiber in the lid and bottom cover**
- Recycled plastics in multiple locations of the product**
- 28% ocean bound plastic in the fan-housing
- 42-46% bio-based rubber in the feet on the bottom of the product and 21% in the lid**
- 50% recycled copper in AC adapter cable

**90% recycled plastics in AC adapter exterior, 50% PCR [battery housing, palm rest, inner frame, bezel (not applicable to 2-in-1 products)], 30% PCR [speaker housing, lid, bottom door (not applicable to 2-in-1 products)].

**Recycled carbon fiber in bottom cover (not applicable to 5340 2-in-1).

**Bio-based material in bottom cover (not applicable to Latitude 5340 2-in-1).

**Packaging Innovation**

Ships in new enhanced 100% recycled or renewable packaging that is also 100% recyclable.*** Multipack shipping available on eligible products.

**Ecolabels**

Eco-labeling standards drive sustainability further by helping customers understand electronic products and the companies that make them. This product meets the following standards:

Dell Optimizer
We make it intelligent. You make it yours.

In a work-from-anywhere world, powering the world’s most intelligent business PCs is not enough, Dell Optimizer is extending personalized intelligence to the rest of the Dell ecosystem.

Dell Optimizer lets you accomplish anything with built-in intelligence that learns and adapts to the way you work.

Elevate everyday work with personalized performance extending from your Latitude to the devices within your workspace.

An intelligent ecosystem
Enjoy easy pairing and management of your Dell monitors and accessories with the integration of Dell Display Manager and Dell Peripheral Manager.

Unmatched connectivity
ExpressConnect provides the world’s first simultaneous multinetwork connection that joins the best network available.

Intelligent privacy anywhere
This technology lets you texturize your screen when an intruder is detected and dims your PC when you look away. It also wakes your PC when your approach and locks it when you walk away.

Extended power
ExpressCharge analyzes your power usage habits to improve PC battery utilization and extends run times by charging your system faster when you need a boost in power.

Up level audio
Intelligent Audio delivers sound and mic enhancements reducing background noise using neural noise cancellation and voice isolation technology.

Improved app performance
ExpressResponse analyzes how you use your preferred apps to boost performance.

With Dell Optimizer, optimization and data collection follow a stringent process to ensure your privacy and security.

Make yourself more resilient to cyberattacks with Dell Trusted Devices.

Attacks are inevitable. In fact, 69% of organizations report a cyber-attack due to a poorly managed internet-facing asset in the prior 12 months.* Dell Technologies understands that today’s security challenges include managing an evolving threat landscape with a modern work environment in mind. With Dell commercial devices, catch and repel malicious activity before it compromises your system. Latitude, one of the industry’s most secure commercial PCs**, offers layers of security features to keep you protected and give you visibility to threats for swift action.

Secure anywhere-work with hardware and firmware defenses built for our hyper-distributed world.

Stay protected from evolving threats
Our unique BIOS and firmware verification provides greater security than other PCs. Assess a corrupt BIOS, repair it and gain insights that reduce exposure to future threats.

Spot ticking timebombs
Indicators of Attack, an early-alert feature offered only by Dell, scans for behavior-based threats before they can do damage.

Detect chassis tampering
Detect unauthorized access, e.g., malicious implanted hardware or software, data/component theft inside system chassis.

Secure end user credentials
SafeID, a dedicated FIPS Level 3 certified security chip, keeps user credentials hidden from malware.

Be safe from first boot
Rigorous, state-of-the-art supply chain controls reduce the risk of product tampering. Optional add-ons like the Dell-unique Secured Component Verification provide additional assurance of device integrity.

Protect data everywhere
Stay protected against advanced threats with optional software-based protections from our ecosystem of best-of-breed partners (CrowdStrike, VMware Carbon Black, Secureworks, Netskope and Absolute).

**Product Disclosures:**

1. Offering may vary by model and by configuration and operating system.
2. A 64-bit operating system is required to support 4GB or more of system memory.
3. 1GB means 1 billion bytes and TB equals 1 trillion bytes; actual capacity varies with preloaded material and operating environment and will be less.
4. The stated Watt Hour (Whr) is not an indication of battery life.
5. Intel Rapid Storage Technology requires a HHD, mSATA, or an SSD, as primary storage device and Windows OS required
6. Wireless antenna available only at time of system purchase.
7. Dell Latitude 5340/5440/5540 are brominated flame retardant free (BFR-free) and polyvinyl chloride free (PVC-free); meeting the definition of BFR-/PVC-free as set forth in the iNEMI Position Statement on the Definition of Low-Halogen Electronics (BFR-/CFR-/PVC-free). Plastic parts contain less than 1,000 ppm (0.1%) of bromine (if the Br source is from BFRs) and less than 1,000 ppm (0.1%) of chlorine of 900 ppm (0.09%) and maximum bromine being 900 ppm (0.09%).
8. The Bluetooth wireless card version may vary depending on the operating system that is installed on your computer.
9. New packaging is made with up to 39.5% recycled content and up to 64.4% renewable content in the form of renewable paper fibers. Material makeup varies by product and size. Excludes optional items added to order and included in box. Paper packaging materials can be recycled via municipal recycling, where available. System bag is made from recycled plastic and can be recycled along with other thin plastics.
10. The Bluetooth wireless card version may vary depending on the operating system that is installed on your computer.
