

# Dell Technologies is a first-generation EPEAT Climate+ Champion

Recognized as an early adopter of the new EPEAT emissions-reduction criteria, Dell Technologies demonstrates its commitment and leadership in fighting climate change. EPEAT Climate+ is a product-level designation pursued by brands aiming to address climate change by designing, manufacturing and promoting products that meet ambitious, science-based criteria to reduce emissions.

The EPEAT Climate+ Champion status of Dell Technologies elevates customer confidence and trust in our products with assurance through impartial third-party validation. Customers and partners can clearly identify our EPEAT Climate+ qualified products that meet their sustainability standards.

Dell Technologies has the industry's widest portfolio of EPEAT Climate+ qualified products.\*

\*Based on EPEAT Climate+ registrations as of January 2025.

## How do products attain EPEAT Climate+?

To achieve the Climate+ status, a product must meet all required EPEAT climate criteria. Criteria requirements include:

Public and Third-Party  
Verifiable Product  
GHG Disclosures

Energy-Efficient Upstream  
Manufacturing Processes

Science-Based Greenhouse  
Gas Reduction Targets

Electricity From Renewable  
Energy Sources

The following pages contain a list of our currently registered EPEAT Climate+ products.
