The Z9332F-ON 100/400GbE fixed switch comprises Dell Technologies’ latest disaggregated hardware and software data center networking solutions, providing state-of-the-art, high-density 100/400 GbE ports and a broad range of functionality to meet the growing demands of today’s data center environment. This innovative, next-generation open networking high-density aggregation switch offers optimum flexibility and cost-effectiveness for the web 2.0, enterprise, mid-market and cloud service provider with demanding compute and storage traffic environments.

The compact PowerSwitch Z9332F-ON provides industry-leading density of either 32 ports of 400GbE in QSFP56-DD form factor or 128 ports of 100GbE or up to 144 ports of 10/25/50GbE (via breakout), in a 1RU design.

Using industry-leading hardware and a choice of Dell EMC SmartFabric OS10 or select 3rd party network operating systems and tools, the Z9332F-ON switch incorporates multiple architectural features that optimize data center network flexibility, efficiency and availability, including IO panel to PSU airflow or PSU to IO panel airflow* for hot/ cold aisle environments, redundant, hot-swappable power supplies and fans and delivers non-blocking performance for workloads sensitive to packet loss. The compact Z9332F-ON model provides multi-rate speed, enabling denser footprints and simplifying migration to 400Gbps.

Priority-based flow control (PFC), data center bridge exchange (DCBX) and enhanced transmission selection (ETS) make the Z9332F-ON ideally suited for DCB environments.

The Dell EMC PowerSwitch Z9332F-ON switch supports the open source Open Network Install Environment (ONIE) for zero touch installation of Dell EMC SmartFabric OS10 networking operating system, as well as of alternative network operating systems.

Key applications
- Organizations looking to enter the software-defined data center era with a choice of networking technologies designed to maximize flexibility
- High-density multi-rate 100/400GbE ToR server aggregation in high-performance data center environments at the desired fabric speed
- Small-scale Fabric implementation via the Z9332F-ON switch in leaf and spine along with S-Series 10/25/40/50/100GbE ToR switches enabling cost-effective aggregation of 100/400 uplinks
- High-density 10/25/40/50/100GbE ToR server access in high-performance data center environments
- Multi-functional 10/25/40/50/100/400GbE switching in High Performance Computing Clusters or other business-sensitive deployments requiring the highest bandwidth.
- iSCSI and FCOE deployment, including DCB converged lossless transactions

Key features
- 1RU high-density 100/400GbE aggregation switch with up to 32 ports of 400GbE (GSFP56-DD) or up to 128 ports of 100GbE or up to 144 ports of 10/25/50GbE (using breakout cable)
- Multi-rate 400GbE ports support 10/25/40/50/100GbE. 40GbE ports support 10/40GbE
- Scalable L2 and L3 Ethernet switching with QoS and a full complement of standards-based IPv4 and IPv6 features, including OSPF and BGP routing support
- 25.6Tbps non-blocking (full duplex), switching fabric delivers line-rate performance under full load on Z9332F-ON
- L2 multipath support via Virtual Link Trunking (VLT) and Routed VLT support
- Support for Dell EMC SmartFabric OS10
- Converged network support for DCB, with priority flow control (802.1Qbb), ETS (802.1Qaz), DCBx and iSCSI TLV support
- Z9332F-ON supports Routable RoCE to enable convergence of compute and storage on Active Fabric
- IO panel to PSU airflow or PSU to IO panel airflow*
- Redundant, hot-swappable power supplies and fans
- Supports the open source Open Network Install Environment (ONIE) for zero touch installation of alternate network operating systems
- Accelerated mounting kits reducing time and resources for switch rack installation
- Power-efficient operation up to 45°C helping reduce cooling costs in temperature-constrained deployments

1 50G breakout is a future release feature
Key features with Dell EMC SmartFabric OS10

- Consistent DevOps framework across compute, storage and networking elements
- Standard networking features, interfaces and scripting functions for legacy network operations integration
- Standards-based switching hardware abstraction via Switch Abstraction Interface (SAI)
- Pervasive, unrestricted developer environment via Control Plane Services (CPS)
- Dell EMC SmartFabric OS10 software enables Dell Technologies’ Layer 2 and 3 switching and routing protocols with integrated IP services, quality of service, manageability and automation features

- Increase VM Mobility region by stretching L2 VLAN within or across two DCs with unique VLT capabilities
- Scalable L2 and L3 Ethernet Switching with QoS, ACL and a full complement of standards based IPv4 and IPv6 features including OSPF, BGP and PBR
- Enhanced mirroring capabilities including local mirroring, Remote Port Mirroring (RPM), and Encapsulated Remote Port Mirroring (ERPM).
- Converged network support for Data Center Bridging, with priority flow control (802.1Qbb), ETS (802.1Qaz), DCBx and iSCSI TLV

* Note that units configured in the PSU to I/O airflow direction are subject to tighter restrictions for power consumptions on cables and optics used for 400GbE ports
** Available post launch
Technical specifications

**Physical**

1. RJ45 console/management port with RS232 signaling
1. 10/100/1000BASE-T Ethernet for management
1. 1USB 2.0 type A storage port
1. 32x40GBe QSFP56-DD ports + 2xSFP+ 10GbE

**Chassis**

Size: 1RU, 17.3" h x 17.3" w x 25.8" d
(43.8 x 43.8w x 65.9d)
Weight: 22 lbs (9.98 kg)

**Environmental**

Power supply: 200-240 VAC 50/60 Hz
Max Power consumption: 1500 Watts
Typ. Power consumption: 900 Watts

Max Operating specifications:

- AC Max. Operating specifications:
  - Operating temperature: 32°C to 113°F (0°C to 45°C)
  - Operating humidity: 10 to 90% (RH), non-condensing

Max. Non-operating specifications:

- Storage temperature: –40°F to 158°F
- Storage humidity: 5 to 95% (RH), non-condensing

Fresh air Compliant to 45°C

**Redundancy**

Hot swapable redundant power (2 per switch)
Hot swappable redundant fans (7 per switch)

**Performance**

Switch fabric capacity: 25.6Tbps (full duplex)
Forwarding capacity: up to 5.1Bpps
Layer 2 VLANs: 4K
Multicast hosts: 1K
Multicast IPv6 Routes: 4K
Layer 2 VLANs: 4K
MSTP: 64 instances
LAG load balancing: Based on layer 2, IPv4 or IPv6 headers

**Following SW information relative to Dell EMC SmartFabric OS10:**

- IEEE compliance
- 802.1AB LLDP
- TIA-1057 LLDP-MED
- 802.3ad Link Aggregation
- 802.1Q VLAN Tagging
- 802.1Qbb PFC
- 802.1Qaz ETS
- 802.1X Network Access Control
- 802.3ac Flow Control

**Layer 2 Protocols**

802.1D Compatible
802.1p L2 Prioritization
802.1Q VLAN Tagging
802.1w MSTP
802.1w tRSTP
802.1t RPVST+
VLT (Virtual Link Trunking)
VRP® Active/Active
RSTP & RPVST+
Port Mirroring on VLT ports
DCB, iSCSI, FSB on VLT
RPM/ERPM over VLT
VLT Minloss upgrade

**RFC Compliance**
