

Save Time and Money on Windows Server 2025 with Dell Technologies

Small to medium-sized businesses (SMBs) like yours face growing security threats.

1/3 of SMBs suffered a successful cyberattack in 2024.¹

Yesterday's defenses are no longer enough.

With new security features, Windows Server 2025 is critical for ongoing protection against modern risks.

Automated security management

Automated threat-response mechanisms

New in Windows Server 2025

✓ Support for hotpatching across all editions²

Now you can upgrade for less with Dell Technologies

Compared to a manual installation and volume licensing, Dell PowerEdge R770 servers with Windows Server 2025 preinstalled offer:³

40%

lower licensing costs

62%

less time to deploy

71

fewer steps to deploy

Single-source, enterprise-grade support with

24/7

availability

Savings of up to

\$8,887

when deploying 10 servers

In today's environment, you need your server operating system to do more than ever.

Save time and money on Windows Server 2025 while strengthening security.
