Sustainability on Dell EMC PowerEdge
Leading the industry in sustainable practices in our products, packaging and supply chain.

PowerEdge is our most sustainable server portfolio yet.

</tbody>
</table>

Engineering advancements have helped us reduce our energy intensity in PowerEdge by 83% since 2013 and we increased our energy efficiency by 29% from the previous generation*

PowerEdge servers are designed to perform at 95°F/35°C with no throttling.

The amount of servers it took to do what takes one server today.

---

PowerEdge has

- **43** EPEAT registered products**
- **3.0** ENERGY STAR® throughout the portfolio
- **Up to 35%** Recycled plastic*
