Dell Technology’s Most Versatile 1U Edge Server

The new Dell PowerEdge XR5610 is a powerful short-depth 1U server that is purpose-built for the edge. XR5610 is the upgraded successor to the popular XR11 and features generational enhancements that are designed to deliver high-performance compute and ruggedized deployment capability in a 463mm chassis. Well suited for 5G vRAN and ORAN telecom workloads, as well as military and defense deployments and retail AI including video monitoring, IoT device aggregation and PoS analytics

All-Purpose 1U Featuring Latest Tech

- High performance 1U designed for a variety of demanding workloads including Telecom, Retail, and Military
- One Intel® Xeon Scalable and Edge-Enhanced Processor® with vRAN Boost® supporting up to 32 cores for ultimate edge performance
- Up to 8 DDR5 DIMMs 5600MT/s for 50% increase from previous generation in memory bandwidth

Excels with a Variety of Demanding Edge Workloads

- Excels in telecom deployments such as vRAN, ORAN, and others by offering PTP, SyncE via add-in NICs, Intel CPUs with vRAN Boost® featuring Integrated FEC, and NEBS Level 3 (SR3580) testing
- Designed to support retail and manufacturing applications, including video monitoring, PoS analytics, and IoT device aggregation and analytics
- Field ready for military and defense applications including remote support for field operations and reconnaissance, MIL tested

Purpose-built for the Edge

- Built rugged to operate in temperatures from -5C to 55C; MIL 810H* and NEBS Level 3* (SR3580) tested
- Offers easy serviceability with reverse I/O & power
- Short-depth chassis to fit in space constrained environments
- Withstand dusty and harsh environments with an optional lockable smart filtered bezel for extra physical security

Cyber Resilient Architecture for Zero Trust IT environment & operations

Security is integrated into every phase of the PowerEdge lifecycle, including protected supply chain and factory-to-site integrity assurance. Silicon-based root of trust anchors end-to-end boot resilience while Multi-Factor Authentication (MFA) and role-based access controls ensure trusted operations.

Increase efficiency and accelerate operations with autonomous collaboration

The Dell OpenManage™ systems management portfolio delivers a secure, efficient, and comprehensive solution for PowerEdge servers. Simplify, automate and centralize one-to-many management with the OpenManage Enterprise console and iDRAC.

Sustainability

From recycled materials in our products and packaging, to thoughtful, innovative options for energy efficiency, the PowerEdge portfolio is designed to make, deliver, and recycle products to help reduce the carbon footprint and lower your operation costs. We even make it easy to retire legacy systems responsibly with Dell Technologies Services.

Rest easier with Dell Technologies Services

Maximize your PowerEdge Servers with comprehensive services ranging from Consulting, to ProDeploy and ProSupport suites, Data Migration and more – available across 170 locations and backed by our 60K+employees and partners.

NOTE: * indicates for limited configurations
## Technical Specifications

### Processor
- One 5th Generation Intel Xeon Scalable and Edge-Enhanced processor with up to 16 cores per processor
- One 4th Generation Intel Xeon Scalable and Edge-Enhanced processor with up to 32 cores per processor

### Memory
- 8 DDR5 DIMM slots, supports RDIMM 1 TB max, speeds up to 5600 MT/s. Supports registered ECC DDR5 DIMMs only

### Storage controllers
- Internal Controllers: PERC H965i, PERC H965e, PERC H755, PERC H355, HBA355i
- Internal Boot: Boot Optimized Storage Subsystem (BOSS-N1): HWRAID 1.2 x M.2 NVMe SSDs
- External HBA (non-RAID): HBA355e
- Software RAID: S160

### Drive Bays
- Front bays: Up to 4 x 2.5-inch SATA, SAS, or NVMe SSDs max 30.72 TB
- Drive Bays: Front bays: Up to 2 x 75 W GPUs (single-width, full-height, half-length)

### Power Supplies
- 1 CPU configuration: Up to 2 PCIe slots (2 x16 Gen5)
- 8 DDR5 DIMM slots, supports RDIMM 1 TB max, speeds up to 5600 MT/s. Supports registered ECC DDR5 DIMMs only

### Fans
- 6 Standard cold swap fans

### Dimensions and Weight
- Rear Accessed configuration: Height: 42.8 mm (1.68 inches), Width: 482.6 mm (19 inches), Depth: 400 mm (15.74 inches)
- Front Accessed configuration: Height: 42.8 mm (1.68 inches), Width: 482.6 mm (19 inches), Depth: 487.7 mm (19.20 inches)

### Form Factor
- 1U rack server

### Embedded Management
- IDRAC9, iDRAC Direct, iDRAC RESTful API with Redfish, iDRAC Service Module, NativeEdge Endpoint Orchestrator

### OpenManage Software
- CloudIQ for PowerEdge plug in
- OpenManage Enterprise
- OpenManage Enterprise Integration for VMware vCenter
- OpenManage Integration for Microsoft System Center

### Mobility
- OpenManage Mobile
- OpenManage Integration with Microsoft System Center
- OpenManage Integration with ServiceNow

### OpenManage Integrations
- BMC Truesight
- Red Hat Ansible Modules
- TerraForm Providers
- VMware vCenter and vRealize Operations Manager

### Security
- Cryptographically signed firmware
- Data at Rest Encryption (SEDs with local or external key mgmt)
- Secure Boot
- Secured Component Verification (Hardware integrity check)
- TPM 2.0 FIPS, CC-TCG certified, TPM 2.0 China NationZ

### Embedded NIC
- 4 x 25 GbE SFP+ LOM

### Network options
- 1 x OCP card 3.0 (optional)
- 1 x OCP card 3.0 (optional)
- 2 x RAN DPU (optional)

### Ports
- Front Ports: 1 x iDRAC Direct (Micro-AB USB 2.0) port, 1 x USB 2.0
- Rear Ports: 1 x iDRAC dedicated port, 1 x USB 3.0, 1 x Serial (Micro-AB USB 2.0) port, 1 x Mini-DisplayPort, 1 x RJ45 for dry contact, 4 x 25 GbE SFP+ LOM

### PCIe
- 1 CPU configuration: Up to 2 PCIe slots (2 x16 Gen5)

### GPU
- Operating System and Hypervisors
- SUSE Linux Enterprise Server
- VMware ESX
- Dell NativeEdge OS

### APEX Flex on Demand
Acquire the technology you need to support your changing business with payments that scale to match actual usage. For more information, visit https://www.delltechnologies.com/en-us/payment-solutions/flexible-consumption/flex-on-demand.htm.
