Remedies: Customer will grant Dell Technologies access to the applicable systems to validate how much data was reducible. If Dell Technologies determines that a claim under this Program is valid, Dell Technologies will be given an opportunity to correct the non-compliance at its own cost by either: (i) tuning the system, (ii) providing additional equipment, (iii) re-configuring the microcode, or (iv) adding or changing other hardware components additional hardware capacity not to exceed 50% of the product's usable capacity. For Federal End Users, this Guarantee is governed by Federal law. Dell Technologies does not warrant that a specific data reduction ratio will be achieved. Rather, this Guarantee is independent from, and in addition to any warranty offered by Dell Technologies or the applicable Channel Partner, and none of the limitations stated herein shall limit Customer's rights under such warranties. For the avoidance of doubt, the Program does not provide a guarantee in the sense of an unlimited and/or strict liability in relation to certain Product features or the quality of the Product, but rather a legally binding statement of Customer's remedies in case the guaranteed logical usable capacity is not met pursuant to the above terms and conditions. Program is void where prohibited, whether by way of U.S. or other applicable export control laws or regulations or otherwise. Details and other limitations not specified will be determined by Dell Technologies in its sole discretion. Failure to enforce a term shall not constitute a waiver by Dell Technologies. Program is subject to change or cancellation by Dell Technologies without notice, but any such change will only apply to new purchases and not retroactively.
