Make the grade with Dell EMC’s VDI solutions and Wyse thin clients in education

A lesson into why the latest Wyse thin clients are best in class for VDI environments within education. Fundamentally, within the education sector instructors need to instruct and students need to learn – just as business professionals need to do business.

The new generation of Wyse thin clients can improve your school, college or university – through reduced costs, improved security, simpler administration and better performance for IT professionals, educators and students.

1. Refreshing to latest Wyse thin clients results in 2,100 hours/year saved in boot to login screen time, based on 100 employees working 50 weeks @ 5 days/week.

2. A business with 10K users could see $30K - $50K per year savings in power costs alone.

3. Source: Stephen Herzig, Director of Enterprise Systems at the University of Arkansas.

Why the latest Wyse thin clients get an A+

- Controlled with Unified Endpoint Management from the cloud or datacenter
- Faster boot to login than their predecessors
- Increase in efficiency
- Have reclaimed, previously lost to boot to login screen time
- Annual savings in lower power costs
- Wyse thin clients have a long-life cycle, working for 5 or more years.

Why go back to school with a new Wyse thin client?

- IT resource requirements reduced by 50% with distributed IT and digital workspace solutions implementation
- Guiding students forward, breaking educational standards with the same resources and technologies
- With plug and play functionality, software can be efficiently delivered to thin clients without requiring desk-side calls
- Thin clients managed in mass with Wyse Management Suite on premise or from the cloud
- Virtual Labs
- Ability to maintain and manage multi OS virtual labs with VDI solution
- Lab real estate is now truly virtual, cross subject labs are no longer restricted to one educational discipline or even four walls
- Labs will no longer be restricted to one specific use, now multi-functional
- Wyse thin clients can all be managed from the datacenter or cloud with Wyse Management Suite.

Wyse thin clients can be installed in less than a minute, reducing the need for onsite IT resources.

- Resource utilization
- IT able to accurately determine hardware utilization, resulting in lower costs, overhead and resources
- Impressive power and energy cost savings
- Application delivery enables accurate licensing expenditures
- Able to bill back applications to colleges, schools and departments

Wyse thin clients provide multi OS support and manage software updates centrally, simultaneously meeting security & compliance regulations to avoid penalties.
