PERSONALIZED PERFORMANCE FOR HYBRID WORK.

We make it intelligent. You make it yours.

The world’s most intelligent business PCs*.

Dell Optimizer empowers high-end users with Dell Optimizer — a built-in AI-based optimization software that learns and responds to the way you work. It's the future of performance. Dell Optimizer analyzes audio and network activity in real-time and delivers louder, clearer tone to speech and is ideal for conferencing and podcasting. And it provides a constant, clear connection3.

Dell Optimizer adapts to your behavior so you can work smarter, not harder. It recommends the best performance settings for your tasks and adjusts performance on-the-fly, so you can perform your best. Dell Optimizer continuously learns from your daily tasks and adapts to your changing needs. So whether you're gaming, content creation, or business applications, Dell Optimizer will keep your system running smoothly.

Power management features like ExpressCharge†, ExpressSign-In†, and Dell Rapid Charge ensures you can work at your best. ExpressCharge† can recharge system battery from 0% up to 80% within 60 minutes3, and 80% within 90 minutes. With ExpressSign-In†, your system will auto-power on and log you in as you walk within range. And if you lose your password, ExpressSign-In† can help you regain access.
