Dynamic business landscape

Technological innovation, increasing cyberthreats, and satisfying workforce requirements are only some of the critical considerations modern businesses must make when choosing the right IT partners and computing solutions.

Windows 10 End of Support is 14 October 2025.

- 
 - + PCs will no longer receive security updates, new feature updates and Windows 10 technical support
 - + Older devices may not meet Windows 11 requirements, face compatibility issues and lack the latest built-in performance, security, and AI enhancements

One thing is for sure: transformation is no longer optional, but the only option.

69% are concerned about their organizations ability to effectively manage their devices and protect data¹

51% of organizations are scaling IT development²

of IT and business leaders believe GenAI will deliver transformative value for their organization²

of organizations want to lean more into sustainable innovations²

¹ Dell Technologies survey across 750 business and ITDMs across US, UK, DE, FR and JP, all segments, February 2025
² Innovation Catalyst study, Dell Technologies, February 2024

Seamless synergy

In the face of rapid technology changes, like the wake of AI, businesses need a constant—a reliable IT partner who can help you keep abreast, no matter the pace. Dell Technologies is that partner.

The partnership between Dell, Intel, and Microsoft is not just a collaboration but a seamless synergy that brings tremendous value to your business.

Whether through optimizing workflows, enhancing security, or fostering innovation, this IT powerhouse empowers your journey toward a smarter, more connected future.

||| Dell + Intel + Microsoft |||

- + Dell's superior design optimizes productivity and collaboration everywhere.
- + Copilot, your AI assistant for improved productivity, creativity and efficiency
- + Device management tools allow IT to easily discover, diagnose, repair, or retire PCs
- + Improved security with hardware and software layers of defense
- + Copilot+ PCs offer a unique experience with exceptional battery life and turbocharged performance.
- + A more sustainable approach to help you achieve your sustainability goals

Superior user experience

With AI at the forefront, innovative technologies are designed to enhance employee capabilities. Today's workers need machines powerful and versatile enough to handle heavy workloads anywhere they work. Dell devices enable users to focus on critical tasks with AI tools running smoothly to support them.

76% of ITDMs said employees with AI PCs will outperform those without AI PCs¹

- + AI PCs with Intel® Core™ Ultra processors and vPro for enhanced efficiency and battery life
- + up to 25% more office productivity than a 3-year-old PC²

AI benefits on your Dell AI PC:

- + faster workloads
- + reduced latency
- + increased productivity
- + power efficiency

#1 commercial AI PCs³ worldwide

Easier
management

IT teams are some of the busiest resources in most organizations. Free up more of their time with modern device management. Dell and Windows 11 Pro make it easier for IT to monitor devices, check for updates and deploy the latest technologies hassle free.

80% drop in reported
helpdesk calls¹

- Peace of mind with Dell deployment and support services
- Fewer repair issues and reduced cost
- Hassle-free refresh cycles to ensure peak performance
- Simplify device management and deployment with the industry's most manageable PCs²

¹Commissioned study delivered by Forrester Consulting "The Total Economic Impact™ of Windows 11 Pro Devices", December 2022. Note, quantified benefits reflect results over three years combined into a single composite organization that generates \$1 billion in annual revenue, has 2,000 employees, refreshes hardware on a fur-year cycle, and migrates the entirety of its workforce to Windows 11 devices.

²Based on Dell internal analysis, January 2025. Most-manageable commercial PCs when comparing the systems management capabilities of Dell Update Processes, Dell Manageability Solution capabilities and integrations with 3rd Party Management Solutions, with competitor update processes, systems management solution capabilities and integrations with 3rd party management solutions. 3rd Party Management Solution - Microsoft Intune, is a separate purchase.

Lower costs

Organizations constantly juggle their budgets and look for savings. A device refresh helps to reduce costs.

- + The latest Dell PCs with Windows 11 and Intel processors help avoid repair costs compared to older devices, whilst improving application performance for users.
- + Flexibility to transform IT with Dell APEX PC-as-a-Service¹. No upfront investments required, instead predictable payments over time.

Up to **250%** ROI with newer devices²

30% lower support costs with APEX PCaaS³

More flexibility and better access to the latest technology

Streamlined approach to managing the entire PC lifecycle

More productive end users with newer devices

Full refresh, full AI experience

With 60% of all PCs expected to be AI PCs by 2027¹, now is a perfect time to start planning a monitor and desk refresh for continued next-level AI capabilities. When you upgrade your desk with Dell, each accessory for your fleet is designed to help you tap into the productivity and efficiency that AI can offer.

Dell Pro Monitor Benefits

- Up to **30%** more productivity with larger screen size & higher resolution²
- **Fast data transfer** with Thunderbolt connectivity
- Sharp and smooth video with **higher resolution and refresh rate**
- Better eye comfort with reduced blue light by up to **30%**³
- Up to **44%** lower power consumption⁴

Dell Pro PC accessory benefits

- Up to **44%** more productivity with Dell-on-Dell compatibility⁵
- **Advanced collaboration with AI-enabled features**, from AI noise-canceling headsets to one-click AI access on keyboards
- **Easier management** with singular software to optimize full PC ecosystem⁶
- Most **manageable and secure** smart docks⁷

Offering a better choice

Businesses play a pivotal part in the global environmental effort, which is why they must achieve their sustainability targets. Together, Dell, Intel and Microsoft offer innovative solutions to help meet the expectations of the modern workforce and the green agenda.

81% of ITDMS agree that they need the help of a third-party partner to achieve their sustainability goals.⁵

Asset Recovery

For over 25 years, Dell has helped protect businesses and the environment by retiring old assets and earning customers money through resale—all while assisting them to reach sustainability goals.

Recycling

Since 2007, Dell has recovered 2.5 billion pounds of used electronics.¹ We commit to making every effort to meet our 2030 goal of reusing and recycling one product for every one sold.

Product Sustainability

Dell leads the industry in the use of innovative and sustainable materials in our products.² 94.5% of our packaging is made from recycled or renewable materials³, and we delivered 155.5 million kilograms of these materials last year alone.³

Usage and Repairs

Intel vPro reduces the need for site visits by remotely repairing, remediating or even retiring PCs. Dell offers access to spare parts and tutorials to help you use our PCs for longer.⁴

¹Why the best laptops in 2023 are repairable, PIRG.org
²Recycled cobalt: Applies to the Latitude 7350 Detachable and the Latitude 7350 that uses the 57Whr battery. Based on internal analysis, February 2024 Recycled aluminum: Recycled aluminum is present in the thermal shielding. Based on internal analysis, March 2024. Applies to the new 65W USB-C Adapter, 130W SFF Type-C Adapter, 100W SFF Type-C Adapter, 280W Type-C Adapter, 360W Type-C Adapter Recycled steel Includes OptiPlex Micro, OptiPlex Micro Plus, OptiPlex Tower, OptiPlex SFF and OptiPlex SFF Plus and applies to select configurations launching in March 2024. Based on internal analysis of publicly available information, February 2024. Recycled aluminum applies to the monitor stand and recycled steel applies to the monitor chassis. Based on internal analysis, April 2024 Recycled Copper Applies to the 100W Type-C, 100W USFF Type-C, 130W SFF Type-C, 165W Type-C, and 360W SFF 7.4mm adapters. Based on internal analysis, April 2024.
