Our takeback and recycling process focuses on providing convenient recycling options for customers and then finding reuse opportunities for products, parts, and materials. This helps reduce the need for new raw materials and ultimately accelerating the circular economy.

- **Build New Products**
- **Customer Product Use**
- **Dell Takeback**
- **Data Protection**

- **Recycle Other Materials**
  - Use end-of-life materials in other industries.

- **Extract and Reuse Materials**
  - Closed-loop systems use recovered materials in new products.

- **Extract and Reuse Parts**
  - Reduce the environmental demand of building new parts.

- **Refurbish and Reuse Products**
  - Extend the working life of products resold or donated.
