GAME-CHANGING PARTNERSHIP

Transform your business with APEX

No. 1 global leader in enterprise storage

A leader in worldwide Data Center Colocation and Interconnection Services

Be in charge of how and where you consume storage

With APEX Data Storage Services at Equinix data centers, easily deploy your as-a-Service resources to deliver the most value for your hybrid cloud strategy without sacrificing performance, security or control.

Benefits of colocation services:
- Up to 70% reduction in cloud connectivity costs
- Up to 60% reduction in network traffic costs
- Minimum 30% reduction in latency

90% of enterprise plan to use colocation services by 2022, up from 47% in 2020

Equinix offers low latency access to public cloud to deliver performance, cost and cost optimization.

SAFETY Firstline management and protection of your business
