Are You Ready For the Data Era?

It’s Time to Forge Ahead with SAP

Modernize IT, from edge to core to cloud, so you can run SAP intelligent solutions.

Dell Technologies is ready to help you develop a cloud-smart strategy for SAP.

And turn data insights into action — across the business.

Data Smart

Build a data fabric universe to connect information silos, increase visibility

- Realize new business value from data — no matter where it’s generated or stored
- Get better control of data from all sources — to achieve faster insights with scalable AI and data analytics solutions
- Combine data regardless of type — IoT, big data, or operational data from SAP HANA

Cloud Smart

Provide consistent solutions for placing and protecting landscapes

- Adopt cloud as an operating model and not as a destination
- Make your multi-cloud environment easier to manage with Dell Technologies Cloud
- Deliver “everything as a service” across clouds — private, public, and the edge

Operations Smart

Automate delivery and lifecycle management of IT resources

- Get the maximum efficiency from IT workflows, better productivity from staff
- Maintain control while eliminating complexity and risk with hyperconverged and converged infrastructure
- Choose from a broad portfolio of Dell Technologies TDI-certified infrastructure options and financial consumption models

How Do You Get There?

1. REIMAGINE BUSINESS OPERATIONS

2. PARTNER WITH DELL TECHNOLOGIES

3. HYBRID CLOUD OPERATING MODEL

By 2027

>90,000
SAP ERP clients must move to SAP S/4HANA
