Intelligent PCs with Intel vPro® partners.

Technologies, October 2020 - Dell Optimizer available in 2020 and 2021 devices, not available in OptiPlex 3000 series, OptiPlex 7070 Ultra, Latitude 3310 2-in-1 and Chromebook Enterprise. Feature availability and functionality can vary by mode. Dell Optimizer ExpressSign-in must be enabled if the device is configured to use Knox. DO learns how user uses the selected application(s) over several hours. Based on Dell testing using Sysmark 2018 benchmark on a Latitude system running productivity applications; and using performance evaluation benchmarks on Precision mobile workstations running ISV applications, March 2020. Improvement will vary based on product configuration, use, software, operating conditions, power management settings and other factors. Improvements may decrease over time. System performance may be impacted.

Within Dell Power Manager software, selecting ExpressCharge can recharge system battery from 0% up to 80% within 60 minutes. After charging has reached 80% capacity, charging speed will return to normal speed. Recommended for use with the provided Dell power adapter; not recommended with a smaller capacity power adapter. Charging time may vary +/-10% due to system tolerance.

ExpressConnect available with Dell Optimizer software version 2.0 and onwards. Download the latest at https://www.dell.com/support/home.
