Dell SafeGuard and Response

CrowdStrike Falcon® Endpoint Protection Enterprise

KEY BENEFITS

- Helps stops breaches and simplifies endpoint protection
- Helps provide unparalleled real-time and historical visibility across endpoint events and activities
- Helps accelerate investigation and remediation and ensures stealthy attacks don't go undetected 24/7
- Orchestrates and automates complex workflows with Falcon Fusion to simplify security operations and accelerate response
- Shows you the big picture with CrowdScore, your enterprise threat score

CLOUD-NATIVE PLATFORM

- Reduces cost and complexity by eliminating the need for constant signature updates, on-premises management infrastructure and complex integrations
- Enables fast deployment and rapid operationalization — without requiring a reboot after installation
- Full, automated protection across endpoints without impacting endpoint performance and end-user productivity

Stop breaches with full endpoint protection

Built to help stop breaches, CrowdStrike Falcon® Endpoint Protection Enterprise** unifies next-gen antivirus (NGAV), endpoint detection and response (EDR), managed threat hunting, and integrated threat intelligence, in a single cloud-delivered agent.

Falcon Endpoint Protection Enterprise At-A-Glance

Module	Falcon Endpoint Protection Enterprise
FALCON PREVENT™ NGAV	✓
FALCON INSIGHT™ Endpoint Detection and Response	✓
FALCON INTELLIGENCE™ Automated Threat Intelligence	Elective Component*
FALCON DEVICE CONTROL™ USB Security	Elective Component*
FALCON FIREWALL MANAGEMENT™ Host Firewall	Elective Component*
FALCON OVERWATCH™ Managed Threat Hunting	Elective Component*

Key product capabilities

AI-Powered NGAV

- Protects against the spectrum without requiring daily updates
- Combines prevention technologies — machine learning, AI-powered indicators of attack (IOAs), exploit blocking, high-performance memory scanning and more — to stop ransomware and fileless attacks
- Covers gaps left by legacy AV and protects endpoints online and offline

Intelligent EDR

- Prevents silent failure by capturing raw events for automatic detection of malicious activity, providing visibility, proactive threat hunting and forensic investigation
- Unravels attack in the easy-to-use CrowdScore™ Incident Workbench enriched with context and threat intelligence data
- Provides powerful response action to contain, investigate and remediate compromised system

24/7 Managed Threat Hunting

- Elite team of security experts proactively hunts, investigates and advises on activity in your environment to help ensure threats and high-priority alerts aren't missed
- Alert prioritization uniquely pinpoints the most urgent threats in your environment and helps resolve false positives
- Guided response provides clarity on an attack, showing you what to do next

Device Control*

- Provides detailed visibility on USB device usage
- Enables granular policy enforcement to ensure control over USB devices used in the environment

Firewall Management*

- Makes it easy to create, manage and enforce policies
- Defends against network threats and provides visibility to enhance protection and inform action

Integrated Threat Intelligence*

- Enables you to understand the threats in your environment and easily prioritize responses with threat severity assessment
- Eliminates guesswork so you can respond to threats decisively
- Automatically determines the scope and impact of threats found in your environment
- Provides a broader set of indicators of compromise (IOCs) for faster, better protection
