

Dell SafeGuard and Response

CrowdStrike Falcon® Endpoint and Identity Protection Elite

Key Benefits

- Help stop breaches by providing unified endpoint and identity protection
- Provides unparalleled real-time visibility of events and activities across endpoints and identities
- Accelerates investigation and remediation and help ensure stealthy attacks don't go undetected 24/7
- Orchestrates and automates complex workflows with Falcon Fusion to simplify security operations and accelerate response
- Shows you the big picture with CrowdScore, your enterprise threat score
- Reveals areas of exposure and elevates your security expertise and capabilities

Cloud-Native Platform

- Helps reduce cost and complexity by eliminating the need for constant signature updates, on-premises management infrastructure and complex integrations
- Enables the industry's fastest deployment and rapid operationalization — without requiring a reboot after installation
- CrowdStrike provides full, automated protection across endpoints without impacting endpoint performance and end-user productivity

Take breach prevention to the next level

CrowdStrike Falcon® Endpoint and Identity Protection Elite flexible bundle helps stop breaches by combining next-gen AV (NGAV), endpoint detection and response (EDR), managed threat hunting, integrated threat intelligence and IT hygiene. In addition, Falcon Elite enables frictionless identity security with real-time threat prevention and IT policy enforcement using identity, behavioral and risk analytics.

Falcon Endpoint and Identity Protection Elite

At-A-Glance

Module	Falcon Endpoint Protection Elite
Falcon Prevent™ Next-Generation Antivirus	✓
Falcon Insight XDR™* Detection and Response for Endpoint & Beyond	✓*
Falcon Discover™ IT Hygiene	✓
Falcon Identity Protection™ Integrated Identity Security	✓
Falcon Intelligence™ Threat Intelligence	Elective Component**
Falcon Device Control™ USB Device Control	Elective Component**
Falcon Firewall Management™ Host Firewall Control	Elective Component**
Falcon Overwatch™ Threat Hunting	Elective Component**

Key product capabilities

AI-Powered NGAV

- Protects against the spectrum without requiring daily updates

- Combines prevention technologies - machine learning, AI-powered indicators of attack (IOAs), exploit blocking, high-performance memory scanning and more — to help stop ransomware and fileless attacks.
- Helps cover the gaps left by legacy AV and protects endpoints online and offline.

Intelligent EDR

- Helps prevent silent failure by capturing raw events for automatic detection of malicious activity, providing visibility, proactive threat hunting and forensic investigation.
- Unravels an entire attack in the easy-to-use CrowdScore™ Incident Workbench enriched with context and threat intelligence data.
- Provides powerful response action to contain, investigate and remediate compromised systems.

Identity Protection

- Enables unified visibility and actionable insights on workforce identities across multi-directory environments.
- Delivers hyper-accurate detection of identity-driven threats, reducing response time dramatically.
- Enables real-time prevention of identity attacks with conditional access policies.

IT Hygiene

- Provides detailed visibility over applications, assets and user accounts.
- Identifies rogue computers and unprotected systems.
- Sees who and what is on your network at all times.

24/7 Managed Threat Hunting**

- An elite team of security experts proactively hunts, investigates and advises on activity in your environment to help ensure threats and high-priority alerts don't get missed.
- Alert prioritization uniquely pinpoints the most urgent threats in your environment and resolves false positives.
- Guided response provides clarity on an attack and guidance on what to do next.

Device Control**

- Provides detailed visibility on USB device usage.
- Enables granular policy enforcement to ensure control over USB devices used in the environment.

Firewall Management**

- Makes it easy to create, manage and enforce policies.
- Defends against network threats and provides instant visibility to enhance protection and inform action.

Integrated Threat Intelligence**

- Enables you to fully understand the threats in your environment and easily prioritize responses with threat severity assessment.
- Eliminates guesswork so you can respond to threats decisively.
- Automatically determines the scope and impact of threats found in your environment.
- Provides a broader set of indicators of compromise (IOCs) for faster, better protection.
