

Video Conferencing Room Solutions

Dell Video Conferencing Room Solutions

—
Drive productive collaboration from anywhere.

Simplified Room Solutions Management

Experience high-quality video, audio, and web conferencing with all-in-one solutions, combining compute, software, and hardware for any room size. Easy to set up and manage, these systems offer secure remote management for IT teams and hassle-free connectivity for users.

Room Configurations

Establish your basic conference space with the Base Kit, powered by the Dell Pro Micro Plus XE and the Logitech Tap Controller. Certified by Microsoft and Zoom, it comes preloaded with Windows IoT Enterprise OS, enabling seamless Teams or Zoom Rooms setups.

Enhance this foundation with Dell Large Format Displays and Logitech room conferencing devices to create the ultimate conference environment.

Reliable Support

Enjoy peace of mind knowing you are covered with essential technical support. You can also upgrade to ProSupport for greater uptime and direct access to experts for your PCs and monitors.

Dell Video Conferencing Room Solutions

- Certification (choose one): Microsoft Teams Room or Zoom Rooms

Powered by Dell Pro Micro and enhanced with Dell Large Format Monitors

Dell Pro Micro Plus XE

Our solutions leverage Dell Pro Micro Plus XE for seamless collaboration.

The Dell Pro Micro Plus XE is a robust desktop built for OEM durability, featuring Intel vPro technology for excellent performance and manageability.

Certified by Microsoft and Zoom, it ships with Windows IoT Enterprise OS, enabling proper Teams or Zoom Rooms setups. The OS images also allow the Logitech Tap Controller for full meeting control directly from the Tap.

Running Teams Rooms on Windows rather than Android offers more features, with updates released first for Windows.

Get superior screen performance with 55, 65, and 75 inch Dell Large Format Monitors.

Exceptional Display and Performance

Dell Large Format Monitors (55", 65", and 75") provide superior screen clarity with vivid visuals and crisp text, ensuring every presentation captivates. The latest 4K 75" Touch Monitor is designed to elevate conference room experiences for businesses seeking to enhance collaboration.

Advanced Collaboration Features

Interactive Touch Technology in the 65" and 75" monitors supports smooth 20-point touch capabilities, allowing multiple users to write, annotate, and edit simultaneously. The Dell Screen Drop feature enhances meeting inclusivity by improving accessibility for all participants.

Smart Integration and Connectivity

The 55" and new 75" monitors seamlessly integrate with Crestron Connected® and Crestron XiO Cloud® for smarter, more connected meeting spaces. USB-C connectivity and daisy-chaining capabilities make setup and operation simple and efficient.

Support for PCs and Monitors

Add support for your video conferencing room

Maximize Uptime with ProSupport Suite for PCs

Focus on what matters most—your meetings. ProSupport Suite delivers intelligent, automated support to keep your conference room PCs performing at their best.

- **Proactive Monitoring:** Identify and resolve issues before they can impact your work.
- **Automated Solutions:** Self-healing technology works to ensure your systems are always ready.
- **Essential PC Support:** Gain access to expert assistance whenever you need it, ensuring maximum reliability and performance.

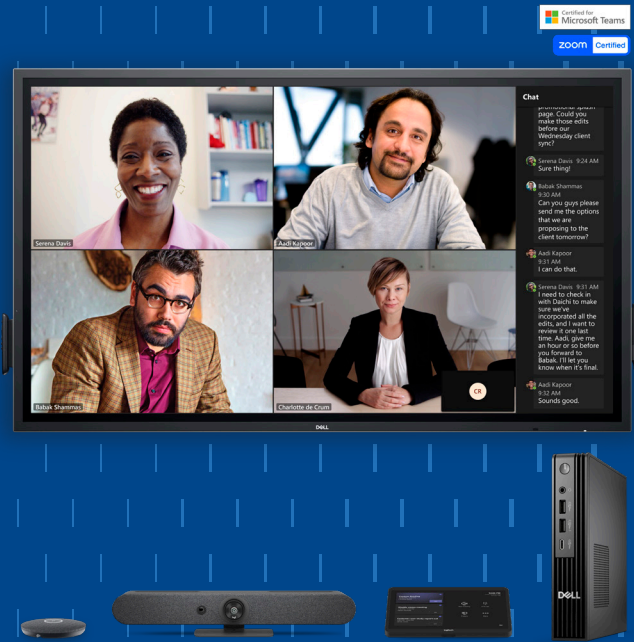

Expert Help with ProSupport for Monitors

Get dedicated, expert-level support for your conference room displays. **ProSupport for Monitors** helps you overcome technical hurdles, from initial setup to complex troubleshooting. Our specialists are here to assist with configuration and ensure seamless interoperability, so your picture is always clear.

How to get support:

1. **Locate your product's service tag:** Find the seven-digit service tag on the product or in BIOS.
2. **Contact Dell:** Visit dell.com/support, enter the service tag in the search bar, select 'Technical Support', and choose your preferred contact method.
