Where we are now

* Statistics vary by country and region.

The opportunities

- Interoperability: three answers to the challenge
- More personalized data-driven care
- Remote assisted living
- Wellness and preventative care
- Drug management
- Hospital operations and logistics
- Pre-validated solutions
- Deliver impact fast
- End-to-end security protects data
- Drag-and-drop easy integration
- Accelerating workloads
- Computer vision
- AI and Machine Learning

The technologies

- IoT systems.
- Security challenges of Edge and IoT
- Visual data can enable automation of massive scale and inherent data transfer
- Patient turning schedules
- Pain assessment
- Emergency room visual triage
- Drug compliance management
- Patient data
- Drug management
- Creates the foundation for your digital future, with flexibility to add in new capabilities
- Pre-validated
- Deliver impact fast
- Pre-validated
- End-to-end security protects data
- Drag-and-drop easy integration
- Accelerating workloads
- Computer vision
- AI and Machine Learning

In healthcare and life sciences today, Dell Technologies Edge Solutions for Healthcare and Life Sciences can help transform your organization.
