

IT Service Management Integration empowers your employees

Invest in decentralizing your purchasing process to enhance workflow efficiency by directly integrating your existing IT Service Management (ITSM) platform with Premier.

Automate to Transform

Increase productivity across your organization by incorporating Dell Premier into your existing workflow.

- Speed up ordering and delivery
- Automate IT purchases for new hires and system refreshes
- Increase productivity across the board

Decentralize and Save

Help transform your workforce by enabling efficient end-user purchasing.

- Add flexibility to your buying
- Set up personas across roles and automatically integrate these into purchase processing and approvals
- Receive real-time order status* updates, including carrier tracking, invoice details, and more

Collaborate with Us

Leverage Dell expertise and maximize capabilities by integrating existing ITSM platforms.

- Implement ITSM integration at no additional cost
- Work with our dedicated experts throughout the integration process
- Leverage Dell API technology for your integrations

Find the right solution for your business
