

Azure Stack HCI OEM License Bundle

Order Dell Integrated System for Microsoft Azure Stack HCI with a single, pre-installed license

This solution brief describes a whole new way to license software for Dell Integrated System for Microsoft Azure Stack HCI: Azure Stack HCI OEM License. It's a one-time, fixed price, perpetual software bundle license that's as flexible and easy as it is budget friendly. Azure Stack HCI OEM License lets IT consume three fundamental core components of any Azure Stack HCI implementation – Azure Stack HCI software-defined infrastructure, Windows Server guest virtual machines, and Azure Kubernetes Service – so your organization can consume services as needs dictate.

Azure Stack HCI OEM License Bundle

Pre-installed perpetual license out of the box with APEX Cloud Platform for Microsoft Azure

An end-to-end Azure hybrid cloud that is easy to deploy and manage

One-time upfront cost for all three services offers price advantages with no reoccurring renewal.

Streamlined for all your hybrid cloud needs, from running legacy to modern applications.

One-stop shop for hardware, software, and full-stack support.

Dell Integrated System for Microsoft Azure Stack HCI

Nearly 6 in 10 midmarket IT leaders say distributed environment complexity is one of their biggest challenges¹. Dell Integrated System for Microsoft Azure Stack HCI addresses these challenges with preconfigured, tightly integrated and reliable hyperconverged infrastructure that is designed to simplify on-premises Azure deployments.

Azure Stack HCI OEM License is pre-installed at purchase, further extending the simplicity, flexibility, and affordability of the platform.

Simplified licensing through Azure Stack HCI OEM License

Dell and Microsoft are working together to offer a whole new way of licensing core elements of the Dell Integrated System for Microsoft Azure Stack HCI implementation with the Azure Stack HCI OEM License. Dell Integrated System for Microsoft Azure Stack HCI comes with the perpetual software license bundle pre-installed, making the procurement process easy, budget-friendly, and available for unlimited usage throughout the life of the hardware.

The Azure Stack HCI OEM License bundle uniquely enables perpetual licensing for Azure Stack HCI 23H2, Windows Server Data Center 2022, and Azure Kubernetes Service, including unlimited usage of Azure Kubernetes Service. With a single upfront cost, you gain significant price advantages without recurring renewals.

Dell Integrated System for Microsoft Azure Stack HCI enhances this offering by delivering preconfigured, tightly integrated, and reliable hyperconverged infrastructure designed specifically for on-premises Azure deployments. This solution optimizes hybrid cloud environments with a Microsoft-native management experience, streamlining deployment and management through Microsoft-native tools and Dell OpenManage Integration with Windows Admin Center. Additionally, it provides a one-stop shop for comprehensive hardware and software support.

Together, the Dell Integrated System for Microsoft Azure Stack HCI and the Azure Stack HCI OEM License provide a robust, cost-effective, and future-ready solution for today's IT infrastructure demands, underpinned by the combined expertise of Dell and Microsoft.
