## Modern servers empower mid-market IT leaders and enable a trusted data centre.

Leaders are
1.9x
more likely to report all servers have cryptographically signed firmware[1]

Leaders save an average of
10.5
person-hours per week[1]

92%
of leaders have met or exceeded ROI forecasts[1]

Leaders are
2.2x
more likely to feel infrastructure investments have greatly reduced risk[1]

Modernise your servers. Refresh your business.

ESG quantified the value of a server refresh and found that organisations with modern server environments save up to $14.3 million per year in downtime costs.[1] The foundation of a trusted data centre starts with the industry's #1 servers from Dell Technologies.[2]
