Modernize applications to accelerate time to market

Application Modernization Services on Microsoft Azure

Remove roadblocks to enhancing developer productivity

In the digital business era, companies must move quickly, adopting innovative digital business models to improve the customer experience. As Developers are increasingly responsible for lifecycle tasks, they are left little time for development work. Additionally, they face mounting cost pressures and workforce challenges, creating major roadblocks to success.

Achieve competitive advantage with cloud native applications

Rely on Dell Technologies Services to accelerate modernization objectives. Leverage our extensive expertise for rearchitecting applications to be cloud native and enabling development teams to produce and respond to changes more quickly while gaining critical skills and processes to drive innovation.

over 50%

of companies moving total application portfolio to cloud.[1]

70%

of organizations will run multiple containerized apps in 2023.[2]

60%

of developer time is spent on implementation & management— less than 20% on coding.[3]

69%

of businesses won't achieve full value from cloud and data investments due to lack of critical skills.[4]

✓ **Enhanced application efficiency**
