Design Engineering, Architecture and Manufacturing Workflow

Dell Precision Workstation

Start Discovering
Design Engineering, Architecture, and Manufacturing in the Modern Era.

In modern times, change is the only constant. The design engineering, architecture, and manufacturing industries are all seeing paradigm shifts in how products and structures are being developed and built.

If you are producing or planning to produce interactive and new-dimensional content for these industries, or companies serving them, you should be prepared to look at your toolsets and review the way you work.

See the most common industry workflows below.
Engineering and Manufacturing Workflow

To compete in a world where production is moving from commoditization to personalization, today’s leading engineers and manufacturers need to streamline workflows using high performance workstations. The challenge is doing that effectively whilst incorporating new technologies such as IoT, reducing physical prototypes and enhancing collaboration.

Dell Precision 5820 Tower workstation delivers scalable performance for 2D and 3D CAD applications, such as:

- Dassault Systèmes® – SolidWorks® and CATIA®, Autodesk Inventor®, Autodesk AutoCAD®, PTC Creo®, Siemens NX™
- 3Dconnexion SpaceMouse Pro

With an advanced ergonomic design and on-screen display, SpaceMouse Pro delivers superior comfort and a simpler, more productive workflow.

For increased productivity you can simultaneously pair up to two compatible devices with Bluetooth® LE.

Dell UltraSharp 27 USB-C Hub Monitor | U2721DE
Get a stable, wired connection to your network and peripherals on this sleek 27” QHD hub monitor with RJ45, USB-C and a host of other ports.
Dell Precision 7550 workstation delivers scalable performance for 2D and 3D CAD applications, such as:

- Dassault Systèmes® – SolidWorks®, CATIA®, Autodesk Inventor®, Autodesk AutoCAD®, PTC Creo®, Siemens NX™

Keep pace with graphic and data-intensive tasks, including VR and AI, with up to NVIDIA Quadro RTX® 5000 professional graphics. Our advanced and patented thermals keep the system running at peak performance while keeping the system cool and quiet.

Precision 7550
World’s most powerful 15” mobile workstation.*
Extract maximum performance from demanding applications with 10th Gen Intel® Core™ and Xeon® R-core processors, up to 128GB of 2933MHz memory and 6TBs of storage.

Dell UltraSharp 27 4K USB-C Monitor | U2720Q
Experience captivating details and true-to-life color reproduction on this brilliant 27” 4K monitor with the widest color coverage in its class.

Dell Premier Wireless Keyboard and Mouse | KM717
Not only will it enhance productivity but its elegant design will fit into virtually any workspace. For increased productivity you can simultaneously pair up to two compatible devices with Bluetooth® LE.

Jabra Evolve 75 Stereo MS H
Outstanding sound. Incredible speakers and HD voice for crystal-clear calls and music.

3Dconnexion SpaceMouse Wireless
This easy to carry wireless device, has a patented 6-Degrees-of-Freedom (6DoF) sensor that allows you to rotate, zoom and manipulate.

*When equipped with Intel® Xeon® W-10885M (2.40 GHz to 5.30 GHz), 128GB ECC/NECC RAM, NVIDIA® Quadro RTX™ 5000 (16G) graphics running at 80W. Based on Dell analysis of competitive products using publicly available data, March 2020.

Dell Performance Dock | WD19DC
Dell’s most powerful dock* delivers the ultimate productivity experience. Charge your system faster, support up to three displays and connect to your peripherals via a single cable with dual USB-C connectors.

*Based on Dell internal analysis of competitive products using publicly available data as of February 2019. Power Delivery of up to 130W when used with compatible Dell systems. Express Charge Boost is available on select Dell systems.

Jabra Evolve 75 Stereo MS H
Outstanding sound. Incredible speakers and HD voice for crystal-clear calls and music.

3Dconnexion SpaceMouse Wireless

Architecture, Engineering and Construction (AEC) Workflow

Today’s AEC professionals have to wear multiple hats. They need to be able to design and visualize to meet customer needs, become greener, and quickly drive critical business decisions. The challenge is finding the appropriate workstations that support their need for photo-realistic rendering and AR/VR technology, and drive more efficient performance and collaboration.

Why Dell for Design, Simulation and Manufacturing for AEC?

Find Out More
The Dell Precision 7750 mobile workstation delivers scalable performance for visualization applications, such as:

- Dassault Systèmes® SolidWorks® Visualize,
- 3DEXCITE,
- Autodesk® 3ds Max®,
- VRED,
- Siemens PLM Teamcenter® Visualization.

**Dell UltraSharp 32 4K USB-C Monitor | U3219Q**
Experience outstanding screen performance on this 31.5" 4K USB-C monitor featuring InfinityEdge and multitasking capabilities.

**Dell Premier Wireless Keyboard and Mouse | KM717**
Not only will it enhance productivity, but its elegant design will fit into virtually any workspace. For increased productivity you can simultaneously pair up to two compatible devices with Bluetooth® LE.

**Dell Performance Dock | WD19DC**
Boost your PC’s power up to 210W on the World’s most powerful* dual USB-C dock. Get the flexibility you need with magnetically separable USB-C cables.

**X-Rite Colorimeter i1Display Pro**
Ensure a perfectly calibrated and profiled display to your client’s color palette while delivering the speed, options and flexibility needed to maintain color accuracy.

**HTC Vive Pro Eye™**
Review rendered architectural projects in virtual reality and allow clients to experience a realistic interpretation of the finished product.

**3Dconnexion SpaceMouse Pro**
With an advanced ergonomic design and on-screen display, SpaceMouse Pro delivers superior comfort and a simpler, more productive workflow.

**Mobile Visualization
Precision 7750**

The newly designed 17” mobile workstation is also small enough to fit inside the previous generation, yet brings even more performance with the latest Intel® Core™ or Xeon® processors, up to NVIDIA® Quadro RTX™ 5000 graphics, scalable and fast storage (8TB) and memory (128GB, 2933MHz) options and an advanced thermal design to keep the system cool while running the most intensive applications.
