

Be more efficient with a smaller, faster, feature-rich business laptop

To determine which laptop would be best suited for business professionals, we compared the Dell Latitude 5440 against the Lenovo ThinkPad T14 Gen 4. We studied the aspects that matter most to modern workers, including mobility, performance and sustainability.

More advanced collaboration features than the Lenovo ThinkPad T14 Gen 4

Enjoy the world's most intelligent collaboration experience.¹ The Latitude 5440 is equipped with Dell Optimizer,² an AI-based optimization software that learns and responds to the way you work, in addition to other premium features not found on the Lenovo ThinkPad T14 Gen 4.

Camera
Optional FHD IR camera has dual-sensors to deliver better image quality

Temporal noise reduction (TNR) for sharper video, so professionals can look great on every video call.

Audio
AI-based neural noise cancellation suppresses background noise on both the user's and speaker's side (Lenovo's noise-canceling feature works on only user's side).

Voice Quality Monitoring with Dell Optimizer notifies users when voice quality is poor, so they can fix it fast.

Connectivity
World's first simultaneous multi-network connection, via Dell Optimizer, prioritizes conferencing apps and delivers faster data and video downloads.³

5G option for fast, always-on connections.

Enhanced mobility with Latitude 5440 makes it easy to work anywhere

The Latitude 5440 is smaller than the Lenovo ThinkPad T14 Gen 4, yet it provides a larger, premium touchpad and the quiet performance hybrid workers want.

Smaller than Lenovo ThinkPad T14 Gen 4⁴

9% larger touchpad⁴ than Lenovo ThinkPad T14 Gen 4
