

Powered by Intel® Technology

Develop your intelligent SAP HANA migration blueprint with the global #1

#1

in
Cloud IT
Infrastructure³

Without effective data management, the benefits of migrating to SAP HANA can be reduced or nullified. Our HANA data analysis service enables rightsizing of your SAP data prior to migration, streamlining data management, speeding-up the process and saving costs.

Trust us to help you build out your own solution or one that's based on Dell EMC Ready Solutions for SAP HANA, powered by Intel® Technology. They have been carefully designed to streamline SAP environments to reduce complexity and maintenance costs, while giving you better performance and investment protection for mission-critical data. These include:

Trust us to help you build out your own solution or one that's based on Dell EMC Ready Solutions for SAP HANA, powered by Intel® Technology. They have been carefully designed to streamline SAP environments to reduce complexity and maintenance costs, while giving you better performance and investment protection for mission-critical data. These include:

Dell EMC Ready Solution for
SAP HANA on VxBlock
Converged infrastructure
solution for SAP

By doing this your organisation will **enjoy a host of benefits that include:**

Trust Dell EMC because we had to migrate too!

When it came to taking back control of basic analytics and reporting in our business, Dell EMC too was faced with the challenge of migrating to SAP HANA, trusting in the standards based Intel® architecture. The results⁵:

60%
of analytics
reports are created
quicker using
self-service BI

Non-standard KPIs and metrics have been cut by **50%**

Through data centralisation and standardisation, BI costs have been cut by almost **50%**

We finance not just the Dell EMC components, but also 3rd party software and

We finance not just the Dell EMC components, but also third party software and services, moving the complete project from CapEx to OpEx.

acquire the right hardware for your business.

Leasing and financing solutions located throughout Europe.

Dell Financial Services
will finance your
technology solution.

Electronic quoting and online contracts lead to an efficient purchase experience
