

Increase agility and speed with a consistent hybrid cloud.

Standardising on an all-in public or private cloud strategy can lead to restrictive environments or poor application performance. Hybrid cloud eliminates the need to compromise by offering a best-of-breed IT approach.*

Organisations that are running a hybrid cloud infrastructure:

Cut infrastructure deployment time up to **20%**

Scale up to **40%** faster

Speed time-to-market by up to **15%**

Deploy apps **12.5%** faster on average

Dell Technologies Cloud: Cloud without the chaos.

With a consistent hybrid cloud, customers get total control of their entire infrastructure with the flexibility to deploy workloads in an optimal and simple manner. Lower total cost of ownership, raise operational efficiency and speed application deployment cycles without disrupting the IT infrastructure by modernising your multi-cloud world with Dell Technologies Cloud powered by Dell EMC and VMware.
