Financial Services

Country
United States

The Goal: Grow in Size and Revenue

Lincoln Investment is on a fast track to growth. By 2020, the company expects to:

Grow revenue from **\$224M to \$450M**

Grow assets from **\$24B to \$50B**

The Business Challenges

Aggressive growth-by-acquisition strategy

24x7 always-on production goals

Full and fast disaster recovery

Need for continuously evolving applications

Demanding industry regulations

The Solution: Dell EMC Converged Infrastructure

Dell EMC VxBlock System

Dell EMC VMAX Storage

Dell EMC Data Domain and Avamar Data Protection

Supporting:

Critical financial services applications

Replication of data in near-real time between two data centers

Streamlined data storage environment

“We can support our strategy to double in size in five years by **enabling digital and IT transformation** using the Dell EMC converged solution.”

Guru Rao, CIO, Lincoln Investment

“We were able to **move two entire data centers** in two weekends, **with zero downtime**, thanks to the technology consolidation and performance of the Dell EMC solution.”

Adam Lion, Director of IT, Lincoln Investment

Results

20%

faster application development

50%

data center footprint reduction

20-50%

faster performance for critical business applications

40%

production window increase to 22 hours per day

100%

redundancy for disaster recovery

System ready for multi-cloud operations

Supported 5 acquisitions with scalability to **double company size** by 2020

Recovery time reduction from **48 hours to <2 hours**

“Our success is dependent on a mix of **acquisition and innovation**, and that’s driving our IT transformation. We rely on Dell EMC technologies to enable that transformation.”

Guru Rao, CIO, Lincoln Investment
