Master Lease Agreement

Is technology outpacing your buying power?

With a Master Lease Agreement (MLA) from Dell Financial Services (DFS), your company can acquire the technology it needs now and in the future without having to renegotiate the basic terms and conditions. In addition, our MLA schedules can be structured differently to meet your financing needs. Placing orders is fast and easy because we have eliminated the need to sign separate lease agreements. Beyond these significant benefits, the MLA basic terms and conditions will apply to all future qualifying orders.**

A signed MLA makes invoice management simple. DFS will provide a schedule outlining monthly transactions and the payment plan, which you’ll sign and return to us. We can even consolidate billing and invoices upon request.

Keep pace with rapid technology advances by taking advantage of the Master Lease Agreement’s many benefits:

- Customized monthly schedules (terms and end of term options) outlining transactions and payments
- Fast order processing
- Basic terms and conditions can apply to future qualifying orders
- Order Dell hardware or software products
- Consolidated billing and invoicing upon request
- Detailed Level Asset Report available upon request
