## Use Cases

- GIS tracking / Location-based analytics
- Risk modeling - operational risk, what if analysis, market risk, day trade risk, credit risk/scoring, diversification risk
- IoT analytics
- Oil drilling and well analytics
- Real-time supply chain insight
- Outage risks/predictions
- Network usage stats
- Fraud detection
- Complete customer profile for 360 degree view of customer insights

## Solution Offering

Kinetica is certified to run on PowerEdge servers, giving you exceptional performance and versatility for dynamic workloads as you quickly go from raw data to actionable insights and competitive advantages. Featuring greater expandability, more storage, and enhanced compute density, the PowerEdge R730/R740 can handle nearly any workload configuration and can run intensive, mission-critical applications for both large and small enterprise environments.

As an example of lightning-fast actionable insights, Dell Technologies and Kinetica can work together to analyze 3.8 billion records of text and tweets from social media, filtered by location, in real time. This capability is ideal for many real-time use cases.
