

ProSupport Enterprise Suite

Support that accelerates
your IT transformation

 Dell Technologies

Comprehensive support for complex environments

The enterprise landscape is changing rapidly, and the pressure to introduce new technologies into your organization while efficiently maintaining existing servers, storage and networking has never been greater. Artificial Intelligence, virtualization, application modernization, modular infrastructure and cloud computing can result in substantial benefits, but they require an even higher level of expertise. A complex environment means complex processes — and more potential problems. The more you depend on technology, the more important it is to have the right support.

To find time to focus on your business objectives and stay competitive, you need to manage:

- Maintenance costs
- Workload availability
- Multiple hardware and software vendors
- Automated proactive and predictive technologies

Today's complex environments
require true enterprise-class support.

Proactive insights

Reducing IT complexities and controlling costs has become seen as a way to fund more strategic business requirements¹, including:

- Increasing customer satisfaction and loyalty
- Boosting employee productivity
- Speeding development times and time to market
- Improving decision-making
- Responding rapidly and dynamically to both market opportunities and competitive challenges

With the right support solution, we can help you achieve your goals.

With the ProSupport Enterprise Suite, you can get the most out of your investment with the support expertise and insights we are known for across the globe. The ProSupport Enterprise Suite doesn't just extend your IT team, It enables you to resolve IT questions and problems in less time.

The ProSupport Enterprise Suite offers:

- Flexibility to choose support based on criticality of specific systems and the complexity of your environment
- A central point of accountability for all your hardware and software issues
- Cross-domain experience that goes beyond a single piece of hardware
- Predictive, automated tools and innovative technology
- Consistent experience regardless of where you're located or what language you speak²

ProSupport Enterprise Suite

Smarter strategies for smarter support.

A strategy that allows you to fearlessly adopt new technology gives you freedom to focus on your business. Having the same enterprise-class support from Dell Technologies on all of your platforms, brands and solutions across your infrastructure gives you that freedom.

As managing technology gets harder, our support is getting smarter.

Dell EMC Basic Hardware Support

Reactive hardware support during normal business hours.

Dell EMC ProSupport for Enterprise

Keep your hardware and software running smoothly with 24x7 access to technology engineers as well as predictive technologies to help you get ahead of issues.

Dell EMC ProSupport Plus for Enterprise

Proactively improves the performance and stability of your critical systems through automated support, analytics and the right expertise for your organization. ProSupport Plus not only gets you back up and running quickly, but also helps you get ahead of problems before they happen. You'll have the freedom to adopt complex technologies with confidence, knowing Dell Technologies has the expertise and insights to help you be more productive and focus on your goals.

ProSupport Plus

Critical workloads and applications require constant availability and the systems supporting them need more than break/fix support – they need proactive and predictive measures to get ahead of problems before they happen.

ProSupport Plus* proactively improves the performance and stability of your critical systems through automated support, analytics and the right expertise for your organization. ProSupport Plus not only gets you back up and running quickly, but also helps you get ahead of problems before they happen. You'll have the freedom to adopt complex technologies with confidence, knowing we have the expertise and insight to help you be more productive and focus on your goals.

When you choose ProSupport Plus, you'll get:

- An assigned Service Account Manager who knows your business and your environment
- Immediate advanced troubleshooting from an engineer that understands Dell Technologies infrastructure solutions
- Support for any eligible 3rd party software that is installed on your ProSupport Plus system whether you purchased the software from us or not. Not only will we diagnose the issue, we will own the issue through resolution*
- Personalized, preventive recommendations based on analysis of support trends and best practices from across our customer base to reduce support issues and improve performance
- Predictive analysis for issue prevention and optimization enabled by SupportAssist and Secure Remote Service
- Proactive monitoring, issue detection, notification and automated case creation for accelerated issue resolution enabled by SupportAssist and Secure Remote Services

*Availability and terms of Dell Technologies services vary by region and by product. For more information, please view our service descriptions.

⁵Based on an August 2020 internal analysis of service requests from August 2019 to August 2020 for Dell Technologies storage, data protection and converged products comparing service requests for products with ProSupport Plus for Enterprise vs. products without it. Connectivity is via Secure Remote Services. Actual results may vary.

With ProSupport Plus, you experience fewer critical issues. But if you do, your issue is resolved quickly:

Up to
31%
fewer service requests⁵

Up to
36%
faster resolution of
issues⁵

ProSupport Plus

Service Account Manager:

Your designated support advocate.

- Highly skilled expert who understands the specific IT needs and objectives of your business
- Central point of contact to facilitate service management and escalation resolution
- Personalized recommendations based on your environment, best practices and support trends across all of our customers to help improve productivity and stability

“We resolve issues more quickly with our SAM, and with reports on incidences and dispatches from Dell Technologies, we can be more proactive in tackling issues before they impact the performance of our services.”
