

WAYS IT LEADERS ARE TRANSFORMING PC MANAGEMENT

Companies are embracing new, innovative strategies like PC as a Service and cloud-based management to enhance employee experiences, support device diversity and expand their capacity for innovation.

81%

are looking for cloud-based management*

Solutions like VMware Workspace ONE let you manage seamlessly from the cloud and offer a level of automation and self-service that increases flexibility and cuts costs.

54%

want PC as a Service*

Companies are looking to move to subscription-based deployment models that offer high-performance devices and predictable pricing, like Dell PC as a Service.

90%

are exploring new deployment models*

Nearly every firm surveyed reports plans to move to a new device deployment model within the next 12 to 24 months. A quarter of them are already shifting.

78%

are prioritizing workforce productivity*

Improving workforce productivity is top of mind and the devices that employees use on a daily basis will either inhibit or drive their experience.
